BOEING PRODUCT STANDARDS

WS20100806

These reports are extracted from the PSDS database and are sorted by document type.

WEEKLY RELEASE REPORT - STANDARDS [Section 1](#)

Lists Standards that were loaded to the PSDS Standards Authority Database during the past week (Friday to Thursday). The report will be run on Fridays.

- Release Date Column - reflects the Revision date that appears on the standard rather than the disposition (load) date of the standard.
- Author Column - refers to the division or organization that custodians the standard. It does not refer to the organization that performed the data entry for the item. (True also for QPL and departure release reports.)

WEEKLY RELEASE REPORT - QPLs [Section 2](#)

Lists QPLs that were loaded to the PSDS Standards Authority Database during the past week (Friday to Thursday). The report will be run on Fridays.

- QPL Revision Column - This column lists the QPL Revision that has been released.

WEEKLY RELEASE REPORT - DEPARTURES [Section 3](#)

Lists departures that were loaded to the PSDS Standards Authority Database during the past week (Friday to Thursday). The report will be run on Fridays.

- Departure Column - lists the number of the departure that was released. Since departures are not written to a particular Revision of a standard, no standard Revision is shown on this report.

WEEKLY TERMINATION REPORT - DEPARTURES [Section 4](#)

Lists departures that were terminated as a result of supersession by a new departure, cancellation, expiration or inclusion in a revised standard.

WEEKLY TERMINATION REPORT - STANDARDS [Section 5](#)

Lists Standards that were terminated as a result of supersession by a new standard or being moved to Corporate Standard Archives.
