

Q082 Single Lot-Date Code - rev 10/1/01

The full quantity of each part number provided under this purchase order/contract must have a single lot-date code. Seller will obtain the written approval of Boeing's authorized purchasing representative prior to shipping goods that do not meet this single-lot-date-code requirement.

In the event that the Boeing's purchasing representative provides authorization in writing to ship mixed lot/date codes, the seller shall provide a copy of the Boeing's written authorization with the shipping document. When mixed lot/date codes are authorized, the shipper shall list individual lot/date codes and quantity. Multiple lot/date codes shall not be co-mingled. In addition, the individual part containers shall be marked with the quantity and lot/date code.
