

Q125 Electrostatic Sensitive Discharge Protection Program - rev 10/1/01

The purchase order/contract requires the Seller to maintain a documented Electrostatic Discharge (ESD) protection program. If the Boeing specification referenced in this purchase order/contract does specify control requirements for ESD, Boeing specification requirements shall be implemented. If the Boeing specification referenced in this purchase order/contract does not specify ESD control requirements, the Seller shall maintain a documented ESD protection program which meets the control program elements 5.1, 5.3, 5.4, 5.5, 5.6, and 5.9 requirements of MIL-STD-1686C and includes documented employee training. Other element requirements are specified in the Boeing specification, if required.
