

BDS Terms and Conditions

Clause Number: Q108

Effective: 10/12/2017

Page 1 of 1

WAFER LOT NUMBER / DIFFUSION RUN NUMBER TRACEABILITY - DELIVERABLE

Seller shall provide the following on or with the shipper / packing sheet.

- The purchase contract number and line item number as it appears on Buyer's purchase contract.
- The diffusion run number / wafer lot number for the quantity of parts shipped.

Note: The terms "Wafer Lot" and "Diffusion Run" are interchangeable for purposes of this clause.

- The wafer number that the parts were taken from within the wafer lot, when applicable.

Each change in wafer lot number / diffusion run number, date code, or wafer number requires separate packaging to avoid comingling. Parts from more than one wafer lot / diffusion run, date code, or wafer are not to be comingled within the same individual unit packaging. Providing more than one individual unit package to fulfill a contract line item is permissible, as necessary, to avoid comingling of parts.
