**Q305            Seller Inspection Requirements - rev 4/26/01**

Seller inspection requirements the seller is responsible for performing or having performed all inspections, tests and calibration necessary to substantiate that the supplies or services furnished under this contract conform to contract requirements. Records of such performance must be maintained on file at seller's facility and made available for review by buyer upon request. For military parts, if the specification for the parts has a qualified products list (QPL), then the manufacturer of that part must be listed on the QPL.
