AFLCMC--H002 COMMERCIAL SOFTWARE LICENSES (JUL 2012)

In accordance with the present clause, the Contractor shall provide license agreement information for all COMMERCIAL software licenses to be obtained on behalf of or transferred to the US Government under this contract. In this arrangement, the Government may ultimately become the Licensee in certain COMMERCIAL software licenses. In order to permit the

Government to become a Licensee in the COMMERCIAL software licenses, the Contractor shall first pre-review the COMMERCIAL software licenses intended for transfer to the Government to verify compliance with any one of Alternatives I, II or III, as shown below.

License agreements shall be provided to the Government Contracting Officer, through Buyer, concurrent with proposal submission to ensure compliance with the terms and conditions shown below (Alternatives I and III only). For any COMMERCIAL software licenses which are not reasonably identifiable concurrent with proposal submission, such license shall be first pre-approved by the Government Contracting Officer prior to their incorporation into a system deliverable to ensure compliance with the terms and conditions shown below (Alternatives I and III only). This obligation to obtain pre-approval by the Government Contracting Officer, as described above, continues throughout contract administration.

In view of the above, it should be understood that the Government will not accept nor execute a DD Form 250 for the software deliverables under the present contract until the Contractor conforms to at least one of Alternatives I, II or III .

Alternate I:

The terms and conditions required to permit any COMMERCIAL software licenses to be transferred to the Government (e.g., Government to become a Licensee) include the following:

1. Any license shall be perpetual in nature and may not be unilaterally terminated by the Licensor. All remedies available shall be consistent with the Disputes Clause in the underlying basic contract.
2. By law, the U.S. Government cannot enter into any indemnification agreement where the Government's liability is indefinite, indeterminate, unlimited and in violation of the Anti-Deficiency Act; therefore, any such indemnification provision in this License shall be removed.
3. The Licensor shall not use the fact that the Licensee is using the Licensor's products in any notification to the public (e.g., no publicity rights permitted).
4. The Licensee is a Federal entity governed by Federal Statutes, Case Law, and Federal Regulations. Therefore, the Licensor shall remove any references to binding the Licensee through any laws of any municipality, state, or foreign country.
5. The Licensor shall not include any clauses indicating a right to enter the premise of Licensee for the purpose of auditing the use of any license, as the Licensee cannot allow an auditor physical access to the Licensee's facility due to security concerns. The Licensor may submit to the Licensee written notice indicating a substantiated belief that the Licensee is not using the software within the terms described in the license and the Licensee may consider conducting its own internal audit and providing a certified statement of its findings to the Licensor.
6. The Licensor shall not use any integration clauses.
7. The Licensor shall not use any injunctive relief clauses as the Licensor cannot prevent the Licensee from performing mission operations.
8. The Contractor shall provide documentation to clearly correlate or map software license(s) to:
 - a) Contract Line Item Numbers (CLINS);
 - b) Contract Deliverables (CDRLS);
 - c) Paragraphs in the statement of work (SOW); and
 - d) Portions of any functional block diagrams and/or system architecture diagrams, so that it can be readily determined where certain commercial software corresponding to certain software license agreement(s) are physically located on the system to be delivered under the contract.
9. The Licensor shall not include any clauses in the license agreement that in any way restrict assignment to the Government and/or restrict the Contractor from continuing as a licensee in said license agreement for the beneficial use of said license agreement by the Government.
10. The license shall not comment on the entitlement to attorney fees in the event of a dispute.
11. The license shall not disclaim all warranties through use of an "as is" provision.

12. The license shall not restrict the Government from using the product at various sites nor use of the product by various Government agencies or third parties performing work on behalf of the Air Force under this Contract. In performance of this Contract, Government personnel as well as Government contractors may use the software. Additionally, the software may be used at Government sites and Government contractor sites and the sites may change over time [IF APPLICABLE]. The software license shall be flexible to accommodate this situation [IF APPLICABLE].

13. The license shall not include non-substitution language that would preclude or limit the Government from switching to another vendor/reseller and/or another product to fulfill the requirements of this Contract.

14. The Licensor shall include the following clause (and no other) for disputes: "Since the Licensee is a Government entity, any dispute arising from or in connection with this agreement shall be subject to resolution in accordance with the Disputes Clause included in the basic contract and/or the Government may also consider resolving any disputes using an appropriate Alternate Dispute Resolution (ADR) remedy."

Alternate II:

1. If the Licensor will not agree to the terms and conditions cited in Alternative I and/or as contained in DFARS 227.72, the Contractor shall retain the current license(s) on behalf of and for the benefit of the US Government. Contractor shall provide a listing of the current license(s) held on behalf of and for the benefit of the US Government.

Alternate III:

1. Add the clause described below to all third party COMMERCIAL software licenses intended to be transferred to the Government:

"The Government agrees to the provisions of the present Software License as set forth above to the extent that the provisions of the Software License are consistent with Federal procurement law(s) and satisfies the Government's needs, as prescribed at least by the Department of Defense Federal Acquisition Regulation Supplement (DFARS) section 227.7202-1. In the event that any of the provisions of the present Software License are determined to be inconsistent with Federal procurement law(s) and/or do not otherwise satisfy the Government's needs, the parties to the present Software License hereby agree to use best efforts to revise said licenses."

2. Contractor and/or Offeror must provide the Government with substantive evidence, e.g., documentation, meeting minutes and/or other verifiable information supporting that best efforts were used to revise said licenses..
