B. INSPECTION

Buyer's Contract contains Inspection Clauses which provide Government's rights regarding inspection. These inspection rights are extended to inspection of Seller's work. Should the Government or its designated contractor(s) wish to inspect Seller's work at Seller's facility, Seller is required to furnish all reasonable facilities and assistance for the safe and convenient performance of such inspection duties by the Government or its designated contractor(s) under this purchase order. In furtherance of this requirement, the following information and detailed requirements are provided:

The Seller further agrees to include in each subcontract a clause requiring compliance by lower-tier subcontractors and succeeding levels of subcontractors with the response and access provisions outlined above, subject to coordination with the Seller. This agreement does not relieve the Seller of responsibility to manage the subcontracts effectively and efficiently, nor is it intended to establish privity of contract between the Government or its designated support contractors.
