Seller shall ensure that each Seller employee requiring access executes any user responsibility agreements required by the Government prior to access. Seller shall provide signed copies of the agreements through Buyer to the Installation Security Officer. Unauthorized access is a violation of law and punishable under the provisions of 18 USC 1029-1030 and other applicable statutes. Seller shall notify the installation through the Buyer no later than the end of the day of termination for cause of an authorized employee's access. Seller shall notify the installation through the Buyer not later than seven days after an authorized employee no longer requires access. Verbal notifications shall be confirmed in writing within twenty days.

K. Technology Transfer.

Seller shall support, and participate in, the Government's Technology Transfer Program by assisting in the transfer of technology developed under government contracts to the private sector. Seller's participation may include the following: dual-use technology development of cutting edge technology having applications both within and outside the aerospace community; collaborative efforts with third parties for the purpose of transferring technology; Government sponsored technology outreach and industry assistance programs that further the transfer of technology; applications engineering work for the purpose of adapting the developed technology to a specific commercial use. Seller shall establish a written plan to further the transfer of technology developed under Government contracts which is consistent with NASA's "Agenda for Change" dated June 1994. This policy shall include: Seller's commitment to educating and training its workforce in technology transfer activities; Seller's commitment to assist its subcontractors with technology transfer activities; Seller's commitment to outreach activities aimed at marketing and commercializing technology being used under this order. Seller shall submit quarterly reports that explain its progress in meeting the objectives of their Technology Transfer Plan to the Buyer.

L. Custody and Disposition of Computer Software.

The computer software packages acquired or developed in the performance of this order may remain in custody of the Seller until Buyer calls for the transfer or delivery thereof, or until transfer or delivery is made pursuant to any requirements specified elsewhere in this order, whichever is earlier. Whenever such packages are commercially available, Seller shall either grant or obtain from the appropriate third-party vendors sufficient rights to transfer or deliver, without additional fee or approval, the software packages and their licenses to the Government or any authorized follow-on Government contractor. In order to comply with subparagraph (h) of FAR 52.227-14 (Rights-In-Data - General), Seller shall include NASA FAR Sup. 18-52.227-86 (Commercial Computer Software - Licensing) in all subcontracts supporting this order which involve the acquisition of commercial software; if the subcontractor refuses to accept this clause, Seller shall promptly notify Buyer and not proceed with the award of the subcontract without further authorization.

M. Information Technology Purchases.

Information technology purchases made under this order may be made only after Buyer review and approval of the proposed purchases. "Information Technology" applies to all resources as defined in the Information Technology Management Reform Act (ITMRA).

N. Export of Technical Data, Computer Software, or Hardware.

NASA may have a need to deliver, disclose or transfer to a foreign entity or person technical data, computer software, or hardware developed, used or required to be delivered by Seller in performance of this order. When such a need arises, NASA may exercise through Buyer the applicable exemptions, general licenses, existing NASA export licenses or other approvals available under the United States export control laws, and may effect the export of such technical data, computer software, or hardware by direction to Seller through Buyer. When directed in writing by Buyer, Seller shall export on behalf of NASA specifically identified technical data, computer software, or hardware to a named foreign entity or person, in the manner and under the conditions provided for in the direction. Any export made in accordance with this clause shall be limited to only that technical data, computer software, and hardware which Buyer specifically identifies and authorizes Seller to export, in the manner and under the conditions provided in the authorization. All other exports of technical data, computer software and hardware by Seller, whether related to performance of this order or otherwise, are subject to the applicable requirements of the United States export control laws and regulations. Nothing contained in this clause shall affect the protection or allocation of rights to technical data or computer software between Buyer and Seller or its subcontractors as provided for in this order or subcontracts supporting this order, nor shall this clause imply any license or affect the scope of any license otherwise granted to the Government, Buyer, or the recipient of the transferred or disclosed technical data or computer software. Seller shall include this clause in all of its subcontracts (suitably modified to reflect the relationship of the parties), the performance of which may require the development, delivery, or use of the technical data, computer software, or hardware, and the Seller may direct an export on behalf of the Buyer,

subject to the limitations set forth above; alternatively, Buyer may give such direction directly to Seller's subcontractor (with notice to Seller).

O. Access to Seller Data.

This clause applies only if this is a cost-type contract. "Data" means recorded information (regardless of form or media in which it is recorded), including but not limited to the following: technical data; computer software; information incidental to contract administration, such as financial, administrative, cost or pricing, or management information; Seller internal audits of any discipline, system or task which directly or indirectly supports Shuttle, Payload, and ISS ground support, launch, flight or landing operations, as well as such data from any audit of subcontractors supporting Seller's efforts under this order. Buyer and United Space Alliance shall, through closeout, have access to and right to examine any of the data used or produced in the performance of this order. Access to certain sensitive business data shall be determined on a case-by-case basis. Seller shall make available at all reasonable times for Buyer, United Space Alliance, or NASA inspection all existing Buyer or Government data provided to Seller and any data first produced or used in performance of this order for examination through closeout; moreover, information provided by Seller shall contain all necessary technical and business application data to determine the degree to which the requirements of the order are met. Except for software systems being provided as part of this order and existing Seller systems, Seller shall maintain all data on a commercially available system for information management (a system comprised of a COTS database management system with its associated reporting/query tools, and a COTS text and graphics viewer software package); Seller must obtain the approval of Buyer prior to using any new non-commercial system, or upgrading any existing non-commercial system, for information management of data generated under this order. If use of a noncommercial system is approved, Seller shall demonstrate the system to Buyer, United Space Alliance, and NASA and provide thorough training to Buyer, United Space Alliance, and NASA personnel to ensure that they are able to access all data maintained on the system, Seller shall provide Buyer, United Space Alliance, and Government personnel unimpeded access to all areas determined by Buyer or Government as necessary for surveillance, audit, and independent evaluation purposes. Buyer, United Space Alliance, and Government shall have the right to reproduce any data found during the examination that they wish to retain; but they shall retain no greater rights in the data than they would have under the "Rights in Data - General" clause. Seller shall describe the areas of its internal systems where Buyer, United Space Alliance, and NASA access will be permitted, and provide Buyer, United Space Alliance, and NASA the required training to be able to access and use these systems. Seller shall include this clause in all of its cost-type subcontracts supporting this order.

Q. NOTIFICATION OF EMPLOYEE RIGHTS CONCERNING PAYMENT OF UNION DUES OR FEES (52.222-39)(Dec 2004)

a) Definition. As used in this clause –
"United States" means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

b) Except as provided in paragraph (e) of this clause, during the term of this Subcontract, the Subcontractor shall post a notice, in the form of a poster, informing employees of their rights concerning union membership and payment of union dues and fees, in conspicuous places in and about all its plants and offices, including all places where notices to employees are customarily posted. The notice shall include the following information (except that the information pertaining to National Labor Relations Board shall not be included in notices posted in the plants or offices of carriers subject to the Railway Labor Act, as amended (45 U.S.C. 151-188)):

Notice to Employees

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs. Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

For further information concerning your rights, you may wish to contact the National Labor Relations Board (NLRB) either at one of its Regional offices or at the following address or toll free number:

c) The Subcontractor shall comply with all provisions of Executive Order 13201 of February 17, 2001, and related implementing regulations at 29 CFR Part 470, and orders of the Secretary of Labor.

d) In the event that the Subcontractor does not comply with any of the requirements set forth in paragraphs (b), (c), or (g), the Secretary may direct that this Subcontract be cancelled, terminated, or suspended in whole or in part, and declare the Subcontractor ineligible for further Government contracts in accordance with procedures at 29 CFR Part 470, Subpart B – Compliance Evaluations, Complaint Investigations and Enforcement Procedures. Such other sanctions or remedies may be imposed as are provided by 29 CFR Part 470, which implements Executive Order 13201, or as are otherwise provided by law.

e) The requirements to post the employee notice in paragraph (b) does not apply to –

- 1) Contractors and subcontractors that employ fewer than 15 persons;
- 2) Subcontractor establishments or construction work sites where no union has been formally recognized by the Subcontractor or certified as the exclusive bargaining representative of the Subcontractor's employees;
- 3) Subcontractor establishments or construction work sites located in a jurisdiction named in the definition of the United States in which the law of that jurisdiction forbids enforcement of union-security agreements;
- 4) Subcontractor facilities where upon the written request of the Subcontract, the Department of Labor Deputy Assistant Secretary for Labor-Management Programs has waived the posting requirements with respect to any of the Subcontractor's facilities if the Deputy Assistant Secretary finds that the Subcontractor has demonstrated that –

(i) The facility is in all respects separate and distinct from activities of the Subcontractor related to the performance of a contract; and

(ii) Such a waiver will not interfere with or impede the effectuation of the Executive order; or

- 5) Work outside the United States that does not involve the recruitment or employment of workers within the United States.

f) The Department of Labor publishes the official employee notice in two variations; one for contractors covered by the Railway Labor Act and a second for all other contractors. The Subcontractor shall –

- 2) Download a copy of the poster from the Office of Labor-Management Standards website at <http://www.olms.dol.gov>; or
- 3) Reproduce and use exact duplicate copies of the Department of Labor's official poster.

g) The Subcontractor shall include the substance of this clause in every subcontract or purchase order that exceeds the simplified acquisition threshold, entered into in connection with

this Subcontract, unless exempted by the Department of Labor Deputy Assistant Secretary for Labor-Management Programs on account of special circumstances in the national interest under authority of 29 CFR 470.3(c). For indefinite quantity subcontracts, the Subcontractor shall include the substance of this clause if the value of orders in any calendar year of the subcontract is expected to exceed the simplified acquisition threshold. Pursuant to 29 CFR Part 470, Subpart B – Compliance Evaluations, Complaint Investigations and Enforcement Procedures, the Secretary of Labor may direct the Subcontractor to take such action in the enforcement of these regulations, including the imposition of sanctions for noncompliance with respect to any such subcontract or purchase order. If the Subcontractor becomes involved in litigation with a subcontractor or vendor, or is threatened with such involvement, as a result of such direction, the Subcontractor may request the United States, through the Secretary of Labor, to enter into such litigation to protect the interest of the United States.
