4. The Licensor shall not include any clauses indicating a right to enter the premise of Transferee for the purpose of auditing the use of any license, as the Licensee cannot allow an auditor physical access to the Transferee's facility due to security concerns. The Licensor may submit to Buyer written notice indicating a substantiated belief that the Transferee is not using the software within the terms described in the license and the Transferee may consider conducting its own internal audit and providing a certified statement of its findings to the Licensor.
5. The Licensor shall not use any integration clauses.
6. The Licensor shall not use any injunctive relief clauses as the Licensor cannot prevent the Transferee from performing mission operations.
7. Seller shall provide documentation to clearly correlate or map software license(s) to:
 - a) Contract Line Item Numbers (CLINS);
 - b) Contract Deliverables (SDRLS);
 - c) Paragraphs in the statement of work (SOW); and/or
 - d) Portions of any functional block diagrams and/or system architecture diagrams, so that it can be readily determined where certain COMMERCIAL computer software corresponding to certain software license agreement(s) are physically located on the Goods.
8. The Licensor shall not include any clauses in the license agreement that in any way restrict assignment to Transferee and/or restrict Seller from continuing as a licensee in said license agreement for the beneficial use of said license agreement by the Government and Buyer.
9. The license shall not comment on the entitlement to attorney fees in the event of a dispute with Transferee.
10. The license shall not disclaim all warranties as against Transferee through use of an "as is" provision.
11. The license shall not restrict the Transferee or Buyer from using the product at various sites (i.e., applicable to a product-type license for a movable product, as opposed to a site-specific license for a non-movable product) nor use of the product by various Transferee agencies or third parties performing work on behalf of the Air Force under the AFNet. In performance of the AFNet, Transferee and Buyer personnel as well as Transferee contractors may use the software. Additionally, the software may be used at Transferee sites and Transferee contractor sites and the sites may change over time. Thus, the software license shall be flexible to accommodate this situation if applicable.
12. The license shall not include non-substitution language that would preclude or limit Buyer from switching to another vendor/reseller and/or another product to fulfill AFNet requirements.
13. The Licensor shall include the following clause for disputes with Transferee: "Since the Transferee is a Government entity, any dispute between Licensor and Transferee arising from or in connection with this agreement shall be subject to resolution in accordance with FAR 52.233-1 "Disputes," (May 2014), and/or the Transferee may also consider resolving any disputes using an appropriate Alternate Dispute Resolution (ADR) remedy."
14. Seller shall provide a listing of license renewal dates and associated fees/costs if applicable.
15. Seller shall provide a listing and copies of all commercial computer software licenses related to this contract.

Alternate II:

1. The clause below is incorporated into this Contract and will be added to all third party COMMERCIAL computer software licenses with advance notice to and/or consent of applicable third party software vendors of said computer software licenses, for which said licenses are intended to be transferred to the Government Transferee:

"Buyer intends to transfer the software licensed hereunder, either directly or through Buyer's customer, to the U.S. Government. The Government agrees to the provisions of the present Software License, as set forth above and affixed as an attachment to this Contract to the extent that the provisions of the Software License are consistent with Federal procurement law(s) and at least the Department of Defense Federal Acquisition Regulation Supplement (DFARS) section 227.7202 and said contract. In the event that any of the provisions of the present Software License are determined to be inconsistent with Federal procurement law(s); DFARS section 227.7202 and/or said contract, Seller hereby agrees that said provision(s) shall be null and void. In the event that any of said provision(s) are rendered null and void, as described hereinabove, the remaining provision(s) of said License shall remain in full force and effect.

Notwithstanding the above, the Government and Buyer reserve the right to inspect or test any software, software documentation and/or service associated with the present Software License and tendered in performance of this contract for compliance therewith. In the event that said software, software documentation and/or service are deemed non-compliant, Buyer shall be entitled to replacement, refund and/or equitable relief."

2. Seller shall provide a listing of license renewal dates and associated fees/costs if applicable.
3. Seller shall provide a listing and copies of all commercial computer software licenses related to this Contract.
4. Seller shall satisfy sub-section 7, under Alternate I, as described hereinabove.

Alternate III:

1. If the Licensor will not agree to the terms and conditions cited above in Alternatives I and II; and/or as contained in DFARS 227.72, Seller consent, with regard to Seller's software, and shall obtain Licensor's consent, with regard to sub-tier suppliers' software, to sever usage rights contained in any license(s), whereby said usage rights shall be assigned or otherwise transferred to the Government, so as to permit Buyer and the Government Transferee to operate any related software or system containing the software which is associated with the license(s). All other rights and obligations contained in the license(s) shall remain with Seller. In this manner, Seller maintains their status as Licensee in said license(s) and only assigns or otherwise transfers usage rights portions thereof to Buyer and the Government Transferee.
2. Seller shall provide a listing of license renewal dates and associated fees/costs if applicable.
3. Seller shall provide a listing and copies of all commercial computer software licenses related to this Contract.
4. Seller shall satisfy sub-section 7, under Alternate I, as described hereinabove if applicable.
