Except for that requirement, this clause is provided for information purposes only.)

a. Definitions

- (1) Billing Limitations (BL) means funds required to satisfy the Contractor's anticipated billings in the performance of this contract. BL will be adjusted as appropriate to pay all allowable and allocable costs in accordance with the contract clause entitled "Progress Payments" and the provisions of this clause. The Billing Limitation Tables shall define the extent of NAPMA's capability to make payments. The BL shown in Table 1 and 3 represents the funds available in national currencies available for all payments during the periods represented in Table 1 and 3.
- (2) Termination Liability (TL) shall be determined in accordance with FAR Clause 52.249-2 TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (FIXED-PRICE). Estimated TL is shown in Table 2 and 4, which includes amounts disbursed to the Contractor. Tables 2 and 4 may be revised concurrently with updates of BL pursuant to paragraph b. and c. below.

b. Billing Limitations (BL)

- (1) NAPMO will obtain funds and funding commitments from the participating nations sufficient to meet the BL requirement contained in Tables 1 and 3 and sum of all subsequent Billing Limitation Tables (BLT) submitted in accordance with this Special Contract Requirement. Since funding for NAPMO contracts is planned in the participating National Capitals at least one year in advance of need, it is the Contractor's responsibility to ensure that BLT provide the best possible estimates of anticipated billings. In the event that NAPMO is unable to make

timely payments caused by accelerated performance of the Contractor which exceeds the current year's contract cumulative BLT, the Contractor agrees to continue performance and to accept compensation as specified in ESC-H32, "Deferred Payments." The Contractor's forecasts shall be for the periods JAN-APR, MAY-AUG, and SEP-DEC. The Contractor shall require Euro-Canadian subcontractors to submit a copy of their respective BLT forecast to NAPMA concurrent with their submittal to the Contractor. This copy will be used for information and planning purposes only by NAPMA.

- (2) To ensure maximum alignment between the Euro-Canadian subcontractors' BLT/ Termination Liability Tables (TLT) forecast and the NAPMO funding, the Contractor shall allow NAPMA direct involvement in the establishment of these BLT/TL forecasts. This involvement shall only pertain to establishment of the said forecasts and shall in no way interfere with the Contractor subcontractor management. NAPMA shall provide timely notification to the Contractor of any planned communications with the Euro-Canadian subcontractors to allow Contractor participation and will make best efforts to schedule such communications/meetings to coincide with Contractor planned program reviews/meetings at the subcontractors' facilities. The Contractor shall require Euro-Canadian subcontractors to submit a copy of the agreed to BLT forecast to NAPMA concurrent with their submittal to the Contractor.
- (3) Changes in the BLT/TLT proposed by the Contractor shall be submitted 120 days in advance of the BLT period affected in accordance with CDRL requirements (CFSR). Negotiation of the BLT will be concluded within 30 days. If agreement is not reached within 30 days, the on-contract BLT will continue to be in effect. The Contracting Officer shall issue a contract modification which establishes revised BLT/TL within 30 days of agreement on BLTs.
- (4) If the Contractor is requested to submit a proposal for a contract change not covered by paragraph c. of this requirement, it shall include stand-alone BL/TL tables for that project with its proposal. These tables will be updated to reflect negotiated prices and will be added to this requirement as stand-alone tables. Subsequent revisions will be described in paragraph b(1).

c. **Change Orders.** Prior to issuing a Change Order under the "Changes" clause, or a Contract Modification of any value, the Contracting Officer shall request the Contractor to propose BL/TL values for the contemplated change. The Contracting Officer shall include BL/TL values in Tables 1/2 format in the Change Order or Contract Modification. Change Order/Contract Modification BL/TL values are subject to adjustment in accordance with this clause. Upon definitization or award of the Change Order, the BL/TL values will be incorporated into approved Tables 1 and 2. Nothing herein shall prohibit the Contractor from including change order and basic contract billings in a single invoice, with an attached breakout.

d. **Currency Exchange Rates.** Exchange rate variations shall not affect the values of this contract. For the purpose of administration of this contract, national currencies shall be shown separately as well as converted into equivalent U.S. dollars at the exchange rates stated in ESC-H33, "CURRENCY CONVERSION FOR EURO-CANADIAN SUBCONTRACTORS." The resultant values shall be totaled in the "EQUIVALENT DOLLAR" column of Tables 1 through 4.

e. The Contractor agrees to continue performance under conditions of insufficient BL/TL, and agrees to accept compensation as defined under ESC-H32, "DEFERRED PAYMENTS", for insufficient BL/TL under those specified conditions.

f. The Contractor shall support Financial Management Reviews involving SPO/NAPMA financial and contract managers to review CNS/ATM EMD information, such as funding status.

g. The financial data described above will be delivered in accordance with the Contract Data Requirements List (CDRL), "Contract Funds Status Report".

h. The financial data described above will be provided as Attachment 13 to the contract.

**ESC-H31 Payments (JAN 1995).**

(Paragraph b of this clause describes a payment process for "Clearing House Subcontractors." That process applies only to Euro-Canadian first tier subcontractors and to those second tier subcontractors that have a different currency than the first tier subcontractors they work for).

a. U.S. Dollar Payments to the Prime Contractor

- (1) Progress Payments shall be paid monthly pursuant to FAR Clause 52.232-16, "PROGRESS PAYMENTS" up to the cumulative equivalent U.S. Dollar amounts specified in the Billing Limitation Table (BLT) on contract for each calendar year. Requirements for payments beyond the amounts indicated on the Billing Limitation Table on contract for the U.S. Dollars are subject to the provisions of ESC-H32, "DEFERRED PAYMENTS" and ESC-H30, "PROGRAM FINANCIAL MANAGEMENT".
- (2) All invoices, once certified by DCMA (for progress payments, Certificates of Conformance/ Completion invoices, DD Form 250 invoices, invoices for fixed-price items or other invoices), shall be submitted concurrently to NAPMA, ESC/HBSF-N, and to DFAS-CO/ DCMD West for payment.

b. First and second tier subcontractors performing under this contract with currencies different than their direct principal should fall under the procedures of the Clearing House Process in order to reduce the exchange rate fluctuation risk for the prime contractor and the subcontractors.

(Note: This process applies only to Euro-Canadian first tier subcontractors and to those second tier subcontractors that have a different currency than the first tier subcontractors they work for). The following procedures apply to these "Clearing House Subcontractors".

- (1) Clearing House subcontracts will be priced and all invoices for payment will be in the first or second tier subcontractor's national currency. Clearing House subcontractors will be paid in their national currency by NAPMA. Requirements for payments beyond the amounts indicated on the BLT for the Euro-Canadian and U.S. currencies are subject to the provisions of ESC-H30, "PROGRAM FINANCIAL MANAGEMENT".
- (2) Payments to Clearing House subcontractors may be based on the completion of contract milestones or progress payments.
- (3) When a second tier Euro-Canadian or U.S. subcontractor has completed a contract milestone or can submit a progress payment request in accordance with its contract, the second tier subcontractor will submit an invoice or progress payment request to the first tier subcontractor, who will verify that the invoice/progress payment request is consistent with the requirements of the subcontract.
- (4) When a first tier subcontractor has completed a contract milestone or can submit a progress payment request in accordance with its contract, the first tier subcontractor will submit an invoice or progress payment request to the National Government Representative. The invoice must contain:
  - (A) The amount of the invoice in first and second tier subcontractor currency(s)
  - (B) The total price of the subcontract broken out by currency for both the first tier subcontract and the second tier subcontract, i.e. separate prices
  - (C) The cumulative amount invoiced to date by currency for both subcontracts
- (5) The National Government Representative will certify that the first tier Euro-Canadian subcontractor has met the milestone completion requirements or that the first tier Euro-Canadian subcontractor is authorized to submit a progress payment request, and that the invoiced amount is correct. After validation by the National Government Representative, the first tier Euro-Canadian subcontractor will forward the invoice/progress payment request to the Prime Contractor.
- (6) Upon receipt of an invoice/progress payment request from a first tier subcontractor, the Prime Contractor shall verify that the invoice/progress payment request is consistent with the requirements of the contract and that the request for payment, both in first and second tier subcontractor's national currency, does not exceed the CNS/ATM Billing Limitation Table amount by currency. If the invoice/progress payment request exceeds the Billing Limitation Table amount, the Prime Contractor shall notify the NAPMA Financial Controller and the Contracting Officer, and the provisions of ESC-H32, "DEFERRED PAYMENTS" shall apply. The Prime Contractor shall convert the amount of the invoice/progress payment request from the national currency of the first and second tier subcontractor to U.S.

dollars based on the currency exchange rates specified in ESC-H33, "CURRENCY CONVERSION FOR EURO-CANADIAN SUBCONTRACTORS".

- (7) The Prime Contractor shall forward by facsimile a copy of the invoice/progress payment request to the NAPMA Financial Controller (with an information copy to the ESC Financial Management Office ESC/HBSF) and shall forward to NAPMA payment in U.S. dollars equivalent to the converted amounts of the invoice/progress payment request. This payment shall be made to the NAPMA Programme Investment Account Number 200.001.066.7703 at the Wells Fargo Bank, NA, Global Government Banking Group, 1300 I Street, N.W., 11th Floor, Washington, DC 200005, ABA/Routing Number: 054.001.220. The Prime Contractor shall forward the original certified first tier Euro-Canadian subcontractor invoice/progress payment request to the NAPMA Financial Controller for filing with the actual payment records.
- (8) Following receipt of the facsimile invoice/progress payment request and payment in U.S. dollars from the Prime Contractor, NAPMA will initiate direct payment to the Clearing House subcontractor. However, in accordance with NAPMA Financial Regulations, final payment will not be made to vendors until original certified invoices/progress payment requests have been received by NAPMA. Certified invoices are required for the first tier subcontracts only.
- (9) The normal process for NAPMA will be to initiate payment of Euro-Canadian and U.S. dollar invoices/progress payment requests once per month on the day specified in the mutually agreed payment schedule for the current year. All properly certified invoice(s) received at least six working days prior to that date will be included in the applicable month's payment process, if payment in U.S. dollars from the Prime Contractor has been received in the NAPMA accounts. In accordance with NAPMA Financial Regulations, original certified invoices must be received before final payment may be made. NAPMA will notify the Prime Contractor by facsimile when payments have been executed. Such notice will include first and second tier subcontractor's name, invoice number(s), amount(s) paid, and date payment is initiated.
- (10) NAPMA and the Prime Contractor will compose a mutually agreed to payment schedule for each subsequent year, considering the NAPMA holiday schedule.
- (11) In the event NAPMA fails to pay Clearing House Subcontractors' invoices/progress payment requests as contemplated by paragraph b. of this clause, the Contractor shall notify NAPMA within five (5) calendar days of becoming aware of such event. Such notification shall identify the invoices payment requests, which have not been paid and shall state the monetary value of said invoices payment requests. The contract price shall be reasonably and equitably adjusted for all damages or costs incurred, including costs associated with any subcontractor claims, suits, actions, liabilities, and damages, occasioned by failure of NAPMA to pay Clearing House subcontractors' invoices as contemplated by paragraph b. of this clause.
- (12) The Prime Contractor and NAPMA will electronically transfer funds as specified in the agreed to payment schedule. The Prime Contractor's and NAPMA's responsibility for each electronic funds transfer ceases upon initiating the electronic funds transfer and is not dependent upon receipt of funds by payee's and recipient's bank. In the event the Prime Contractor does not initiate the electronic funds transfer on the specified date, NAPMA may delay its payment one day for each day of delay of the Prime Contractor's initiation of the electronic funds transfer.

c. If currency required for payment above is not available, ESC-H32, "DEFERRED PAYMENTS," may be exercised by the parties.

#### **ESC-H32 Deferred Payments (JAN 1995).**

(This clause has been included in the CCR for information purposes only.)

- a. Changes in Billing Limitation Tables (BLT) proposed by the Contractor, including changes to the currency mix which do not affect the cumulative budget year totals, must be submitted 120 days in advance of the BL period affected in order for the Contractor to be eligible for interest on deferred payments. In the event sufficient NAPMO funds are not available to assure timely Government payments to the Contractor due to NAPMO's inability to obtain funds to cover contractual cumulative Billing Limitations in

accordance with ESC-H30, "PROGRAM FINANCIAL MANAGEMENT", payment of interest is authorized. This applies equally to certified invoices/progress payments against BL adjustments requested 120 days in advance of the BL period affected, but not modified by the Contracting Officer due to inability to reach agreement within the negotiation period (reference ESC-H30, "PROGRAM FINANCIAL MANAGEMENT," paragraph b (1)). The Contractor must accept payment of interest on overdue amounts in consideration of deferred payment and continued contract performance.

b. In the event sufficient NAPMO funds are not available to assure timely Government payments due to Contractor notification of a change to the BL in less than 120 days, the Contractor shall continue performance and accept deferred payments without interest. NAPMO will exert all reasonable effort to make progress payments/pay invoices out of existing resources, and to obtain additional funds when necessary.

c. In the event an adjustment to the BLT is required due to phasing of requirements within the budget year which do not affect the cumulative budget year total, no deferred payments will be necessary.

d. Interest will be computed and paid subject to the following:

(1) Unpaid amounts of a (any) voucher(s) that have been submitted and Government approved pursuant to the payment provisions of this contract shall be used as a base to compute the daily finance charge. Such charge will accumulate daily on the unpaid amounts from the first USG working day following the date the payment is due to the contractor.

(2) The daily interest shall be computed by dividing the Treasury rate plus 2 percent by 360. The Treasury Rate is defined as results of the most recent auction of 13-week U.S. Government treasury bills sold at discount from face value. "Most Recent" is defined as the 13-week rate published in the Wall Street Journal on the first USG working day following the date the payment is due to the contractor.

(3) Authorization to pay specific interest to the Contractor will be set forth in a contract modification(s) issued by the Contracting Officer. After a deferral of payment(s) under this provision, when NAPMO funds next become available, payments of outstanding vouchers will resume with the oldest outstanding voucher and will be paid to the extent of the availability of such funds.

e. To permit the Contractor to plan for any needs to finance unpaid vouchers, the Contracting Officer will provide the Contractor an estimate of any anticipated funding shortages as early as possible.

**ESC-H33 Currency Conversion for Euro-Canadian Subcontractors (JAN 1995).**

(This clause has been included in the CCR for information purposes only.)

a. This requirement, in combination with ESC-H31,"PAYMENTS"and ESC-H30,"PROGRAM FINANCIAL MANAGEMENT" will protect the Prime Contractor and subcontractors from financial loss or gain due to currency exchange rate fluctuations.

b. The Contractor shall provide forecasts of the required currencies for CNS/ATM EMD in accordance with the BL/TL tables. Reports shall also state the actual currency amounts, which were invoiced to NAPMA for payment in all prior periods.

c. The face amount of this contract will administratively cite the mix of participating nation currencies required for contract total performance. The face value (AFMC Form 701, Blk 22) will also be expressed in total equivalent United States dollars (hereafter called Equivalent Dollars) for purpose of determining total price using the appropriate fixed rates of exchange expressed below. The following fixed rates of exchange that were published in the Wall Street Journal of 8 July 2010 apply to the CLINs of this contract:

Country	Currency	Per US\$
Canada	Dollar	1.0440

Norway	Krone	6.3694
Turkey	Lira	1.5494
UK	Pound	0.6597
Belgium/Lux	Euro	0.7879
Germany	Euro	0.7879

Greece	Euro	0.7879
Italy	Euro	0.7879
Netherlands	Euro	0.7879
Portugal	Euro	0.7879

Hungary	Forint	220.6500
Poland	Zloty	3.2165
Romania	Leu	3.3328
Czech Republic	Koruna	20.0320

d. Changes in the national currency mix shall not change the equivalent U.S. dollar value of the projects.

e. The Contractor is responsible for the selection of all subcontractors including Euro-Canadian subcontractors. The contractor shall employ competitive practices whenever possible in the selection of subcontractors and suppliers. The evaluation of Euro-Canadian firms whether on a competitive basis with each other, with US firms or as part of a make/buy analysis shall be based on currency exchange rates as described below. These procedures apply to all selections/evaluations of first tier Euro-Canadian subcontractors as defined in ESC-H40, "EURO-CANADIAN SUBCONTRACTING," subparagraph a (4).

f. Price evaluation of Euro-Canadian subcontractors for Boeing Make/Buy decisions shall be based on exchange rates in effect on the closing date of the bid. These exchange rates shall be defined as the Spot Rate published in the Wall Street Journal on the closing date of the bid for the respective national currencies. This rate shall be project/supplier specific and shall also apply to any changes to subcontracts for such specific suppliers/projects within the scope of the subcontract. It shall not apply to subsequent Future Work with the selected subcontractor. Future work is defined as outside the scope of this contract or the applicable subcontract.

g. Price evaluation of Euro-Canadian subcontractors for Future Work and Boeing Make/Buy decisions after the award of this contract shall be based upon the current exchange rate. The current exchange rate shall be defined as the Spot Rate published in the Wall Street Journal on the closing date of the bid/proposal from such first tier Euro-Canadian subcontractors for the respective national currencies.

h. If the Contractor chooses a Euro-Canadian subcontractor for Future Work, having a value equal to or greater than \$100,000.00 Equivalent Dollars resulting from a Class I change to the prime contract before TBD, or a Class II change to the prime contract resulting from a Class I change to a subcontract having a value equal to or greater than \$100,000.00 Equivalent Dollars on or after TBD, the applicable BL/TL tables shall be revised to identify the Future Work and to add the currency exchange for the selected subcontractor's national currency for this Future Work. This shall be reflected as a separate column in the BL/TL tables. If the Euro-Canadian subcontractor is selected through competitive bidding procedures, the currency exchange rate shall be the Spot Rate published in the Wall Street Journal on the date of bid closure. If the Euro-Canadian subcontractor is selected as a sole source, the currency exchange rate shall be the Spot Rate published in the Wall Street Journal on the date of the proposal. The applicable contract currency exchange rate noted in paragraph (c) above will apply for all Class II changes and for Class I changes not meeting the \$100,000.00 threshold. As of Date To Be Filled In Prior To Award, the applicable spot exchange rate, as described above in this paragraph, shall apply to any Class II change to the prime contract resulting from a Class I change to the subcontract in having a value equal to or greater than \$100,000.00 Equivalent Dollars.

**ESC-H34 Rights of Participating NATO Governments to Audit Reports (JAN 1995).** Seller agrees that the NATO AE&WC Programme Management Organization (NAPMO) may receive from the Contracting Officer reports of audit of Seller and subcontractors derived pursuant to clause titled "Audit and Records – Negotiation." Seller shall identify proprietary or sensitive data and/or information in source documentation for the aforementioned audit reports. The Contracting Officer shall delete this proprietary or sensitive data prior to release to NAPMO and governments participating in the joint cooperative CNS/ATM - DRAGON EMD Program. (2) The Contracting Officer reserves the right to review and consent to all critical subcontracts prior to award of definitive instruments. Consent by the Contracting Officer to any critical subcontract or any provisions thereof shall not be construed to be a determination of the acceptability of any critical subcontract price or of any amount paid under any critical subcontract or to relieve Seller of any responsibility for performing this contract unless such consent specifically provides otherwise.

(3) It is contemplated that the Contracting Officer's review of Euro-Canadian subcontracts may include participation by the NAPMO staff and representatives of the respective host government as well as the particular Euro-Canadian subcontractor in order to assure full understanding by all of the above of the terms, conditions, special requirements and contract administration arrangements which pertain to this contract. d. Contract clauses requiring flow down to subcontractors shall be flowed down to Euro-Canadian subcontractors unless exempted by the provisions of this clause or by the FAR instructions regarding applicability of the clause. Unless specifically exempted in paragraph e. below, all contract clauses of this contract shall be applicable to Euro-Canadian subcontractors to the same extent as they will apply to U.S. subcontractors, with the following exceptions/modifications:

(1) Quality Assurance - Quality Assurance requirements for Euro-Canadian Subcontractors are addressed in the CNS/ATM-DRAGON SOW(s).

(2) Examination of Records by the Comptroller General - In the provision to be included in subcontracts, as required by subparagraph (c) of the clause, the term "Comptroller General of the United States or any of his duly authorized representatives" shall be replaced by the term "National Audit Authority of the respective Euro-Canadian nation or its duly authorized representative."

(3) Audit and Records-Negotiation - The requirement in (b) of the clause shall, for Euro-Canadian subcontracts, be applied with the term "Contracting Officer, or an authorized representative of the Contracting Officer" replaced by "National Audit Authority or in exceptional circumstances, the USG DCAA."

(4) Filing of Patent Applications - Classified Subject Matter - Applications may be filed with the host nation.

(5) Restrictive Markings on Technical Data - Seller will assure that the intent of this clause is satisfied by Euro-Canadian subcontractors.

f. Pricing and Audit

(1) Pricing of Euro-Canadian subcontractor proposals shall be in accordance with the pricing instructions of this contract; however, the allowability and allocability of Euro-Canadian subcontractor costs including termination costs shall be in accordance with national pricing policies applicable as if the subcontractor's government issued the contract for defense purposes, regardless of whether or not such costs would be allowable under a U.S. Government contract. Allowability pursuant to non-U.S. laws shall be determined between the Contracting Officer and the appropriate National Audit Authority.

(2) In order to assure a proper audit trail of cost or pricing data to the prime contract level and to meet the requirements normally satisfied by subcontractor submission of SF Forms 1411, Seller shall require that all Euro-Canadian subcontractor price proposals substantially meet the FAR Part 15 standards.

(a) Euro-Canadian subcontractor price proposals will provide detailed cost information with supporting information, adequately cross-referenced, suitable for detailed analysis. A supporting breakdown must be furnished for each cost element, consistent with the offeror's accounting system.

(b) Depending on the offeror's system, cost support shall be provided for the following basic elements of cost, as applicable:

(i) Materials - Provide a consolidated priced summary of individual material quantities included in the various tasks, orders or contract line items being proposed, and basis for pricing (vendor quotes, prices, etc.).

(A) Subcontracted Items - Include parts, components, assemblies and services to be produced or performed by other than the subcontractor in accordance with the contracted design, specifications or directions and applicable only to the prime contract. For each subcontract over \$100,000.00, the support should provide a listing by source, item, quantity, price, type of subcontract, degree of competition and basis of establishing source and reasonableness of price, as well as results of review and evaluation of subcontractor proposals when required.

(B) Standard Commercial items as defined in FAR part 2.101- Means items regularly used in the course of normal business operations for other than Government purposes which:

1. Have been sold or licensed to the general public;
2. Have not been sold or licensed, but have been offered for sale or license to the general public;
3. Are not yet available in the commercial marketplace, but will be available for commercial delivery in a reasonable period of time.
4. Are described in paragraphs 1, 2, or 3 that would require only minor modification in order to meet the requirements of the procuring agency.

(C) Interorganizational Transfers (at other than cost) - Provide explanation of pricing method used.

(D) Raw Material - Consists of material which is in a form or state that requires further processing. Provide priced quantities of items required for this proposal.

(E) Purchased Parts - Include material items not covered above. Provide priced quantities for items required for the proposal.

(F) Interorganizational Transfers (at cost) - Include separate breakdown of cost by element.

(ii) Direct Labor - Provide a time-phased (e.g., monthly, quarterly, etc.) breakdown of labor hours, rates, and cost by appropriate category and furnish basis for estimates.

(iii) Indirect Costs - Indicate the method of computation and application of your indirect costs, including cost breakdowns, and showing trends and budgetary data, to provide a basis for evaluation of the reasonableness of proposed rates. Indicate the rates used and provide an appropriate explanation.

(iv) Other Costs - List all other costs which are not otherwise included in the categories described above, (e.g., special tooling, travel, computer and consultant services, preservation, packaging and packing, and spoilage rework) and provide basis for pricing.

(c) There is a clear distinction between "submitting" cost or pricing data and merely "making available" books, records and other documents without identification. The requirement for submission of cost or pricing data is met when all accurate cost or pricing data reasonably available to the contractor has been submitted, either actually or by specific identification. As later information comes into the contractor's possession, it should be promptly submitted to the buyer. The requirement for submission of cost or pricing data continues up to the time of final agreement on price.

(d) The Euro-Canadian subcontractor will grant to the National Audit Authority (see f.(3) below), the right to examine those books, records, documents and other supporting data which will permit adequate evaluation of the proposed price. This right may be exercised at any time prior to award to the Euro-Canadian subcontractor.

(e) The Euro-Canadian subcontractor will submit as soon as practicable after final agreement on price, a Certificate of Current Cost or Pricing Data wherein the Euro-Canadian subcontractor will certify that cost or pricing data as defined above are accurate, current and complete as of the date of agreement on price.

### (3) Audit Authority

(a) If other than a firm-fixed-price contract is to be awarded to Euro-Canadian subcontractor, the allowability of categories of costs for the purpose of final price determination shall comply with national price regulations. The national pricing regulations may be supplemented by mutual agreement between the Contracting Officer and a representative of the participating government. The Contracting Officer shall advise Seller of such action prior to consent to such subcontract by the Contracting Officer.

(b) Additional detailed guidance on audit arrangements will be provided by the Contracting Officer.

(4) Requests for Euro-Canadian Subcontractor assist audits will be directed by Seller to the Contracting Officer through Buyer's Authorized Procurement Representative..

### **ESC-H46 Special Provision Under Paragraph (d) of 52.229-6 Taxes - Foreign Fixed-Price Contracts (AUG 2010).**

(This clause applies only if the taxes and customs described in this clause would otherwise apply.)

a. This contract contains no provision or costs for customs or duties imposed by countries listed in paragraph (c) of ESC-H33, "Currency Conversion for Euro-Canadian Subcontractors", for items required to be delivered to NATO under this contract. In the event a foreign Government imposes such customs, duties, or similar charges, Contractor incurred costs are reimbursable to the Contractor. Reimbursement shall be limited to those Contractor incurred costs, including applicable overhead and G&A expenses, but excluding profit. The contract price will be adjusted accordingly.

b. The NAPMO, acting on behalf of NATO, shall enjoy the privileges of exemption from taxes, customs, duties, and quantitative restrictions on imports and exports in respect of any item or aspect of the programs as set out in Articles IX and X of the Agreement on the status of the North Atlantic Treaty Organization, National Representatives and International Staff (Ottawa, 20 September 1951). Identifiable taxes, customs, duties, or other charges levied by any participating nation in connection with the activities covered by this arrangement will be borne by the Government of the participating nation, either directly or by waiver or by an appropriate increase of that participating nation's contribution.

c. The Contractor is informed of these exemptions and agrees not to incorporate any taxes or customs duties in its price, or otherwise charge the NAPMO for taxes or customs duties. The Contractor is responsible for obtaining and preparing any documentation required by NATO and by tax, duty, or customs authorities to effect the exemptions for the items and services to be delivered. Any circumstances that prevent the Contractor from implementing the aforementioned exemptions will be reported to NAPMA immediately.

d. Taxes levied by non-participating nations and not waived by them will be borne by NAPMO.

e. This clause shall be inserted verbatim in all subcontracts and purchase orders awarded by the Contractor in all cases where such taxes and customs would otherwise apply.

Address of special distribution recipient of the MIRR which is not specified in DoD FAR Supplement Appendix F-401, Table 2 is as follows:

**ES C-H39 Recovery of NAPMO's Pro Rata Share of Nonrecurring Costs on Foreign Commercial Sales (MAY 1995).**

a. In the event Seller, or its subcontractors, intends to enter into foreign commercial sales or license agreements for the items developed under this contract or essentially similar items, it shall promptly notify the Contracting Officer. Seller agrees that it will collect from the customer of a Foreign Commercial Sale an amount or amounts calculated in accordance with subparagraph (2) below to reimburse the NAPMO for a pro rata share of its expenditures for nonrecurring costs applicable to the items. The NAPMO will receive recoupment of any amount or amounts due from Seller through electronic transfer of funds payment between NAPMA and the Contractor.

- (1) Non-recurring costs include such costs as research and development, test, evaluation, pre-production, facilities, special tooling, special test equipment, production engineering, product improvement, destructive testing and pilot model production, testing and evaluation.
- (2) For each foreign sale or license agreement the amount to be reimbursed to the NAPMO for the NAPMO non-recurring costs shall be determined by dividing the total NATO portion of the non-recurring CNS/ATM EMD contract price by the total production quantity of the item, past and projected, excluding the thirty-two (32) aircraft from the USAF fleet, including the production quantity for the NAPMO and multiplying the results by the quantity involved in each such sale or license agreement.
- (3) The phrase "foreign sales or license agreements" includes all sales to or license agreements with foreign buyers that are subject to the Arms Export Control Act, including foreign governments and international organizations, directly by the U.S. domestic firms.

b. Seller agrees that its rights to enter into production for foreign sales of the items or essentially similar items are expressly contingent upon compliance with the provisions of this clause.

c. Seller further agrees to flow-down this clause, substantially as written, in all CNS/ATM EMD subcontracts. The recoupment requirement shall also be applicable for direct commercial sales by subcontractors. Seller's obligations will be limited to reporting to the NAPMO such foreign commercial sales or license agreements that applicable subcontractors enter into. The NAPMO will be responsible for recoupment of any amount or amounts due directly from such subcontractors.

**ES C-H43 Most Favored Customer (AUG 2010).**

(In this clause, "Contractor" means Seller. In the first sentence, add the words "that would be" after "will not be less favorable than the prices.")

The parties agree that the prices proposed by the Contractor for the NATO unique CLINs will not be less favorable than the prices proposed to the U.S. Government as if the U.S. Government were purchasing the same supplies and services for its domestic purposes. The Contractor attests that additional costs that the Contractor may otherwise charge to Foreign military customers with the Government are not included in the contract price.
