a. The ICBM Systems Directorate is responsible for management of the contractor's or Buyer's prime contract. This Buyer's or contractor's prime contract covers part of the program which is under the general program management of the Air Force Space and Missile Systems Center (SMC). The Air Force has entered into a contract with The Aerospace Corporation, a California nonprofit corporation operating a Federally Funded Research and Development Center (FFRDC), for the services of a technical group that will support the DoD/U.S. Government program office by performing General Systems Engineering and Integration, Technical Review, and/or Technical Support including informing the commander or director of the various Department of Defense ("DoD") organizations it supports and any U.S. Government program office of product or process defects and other relevant information, which, if not disclosed to the U.S. Government, could have adverse effects on the reliability and mission success of a U.S. Government program.

1. General Systems Engineering and Integration (GSE&I) deals with overall system definition; integration both within the system and with associated systems; analysis of system segment and subsystem design; design compromises and tradeoffs; definition of interfaces; review of hardware and software, including manufacturing and quality control; observation, review and evaluation of tests and test data; support of launch, flight test, and orbital operations; appraisal of the contractors' technical performance through meetings with contractors and subcontractors, exchange and analysis of information on progress and problems; review of plans for future work; developing solutions to problems; technical alternatives for reduced program risk; providing comments and recommendations in writing to the applicable DoD System Program Manager and/or Project Officer as an

Technical Review (TR) includes the process of appraising the technical performance of the contractor through meetings, exchanging information on progress and problems, reviewing reports, evaluating presentations, reviewing hardware and software, witnessing and evaluating tests, analyzing plans for future work, evaluating efforts relative to contract technical objectives, and providing comments and recommendations in writing to the applicable Air Force Program Manager as an independent technical assessment for consideration for modifying the program or redirecting the contractor's efforts to assure timely and economical accomplishment of program objectives.

3. Technical Support (TS) deals with broad areas of specialized needs of customers for planning, system architecting, research and development, horizontal engineering, or analytical activities for which The Aerospace Corporation is uniquely qualified by virtue of its specially qualified personnel, facilities, or corporate memory. (iii) Aerospace shall make the technical information (including proprietary information) available only to its Trustees, officers, employees, contract labor, consultants, and attorneys who have a need to know.

c. The contractor further agrees to include in all subcontracts a clause requiring compliance by subcontractor and supplier and succeeding levels of subcontractors and suppliers with the response and access and disclosure provisions of this Enabling Clause, subject to coordination with the contractor, except for subcontracts for commercial items or commercial services. This agreement does not relieve the contractor of its responsibility to manage the subcontracts effectively and efficiently nor is it intended to establish privity of contract between the Government or The Aerospace Corporation and such subcontractors or suppliers, except as indicated in paragraph (d) below.

d. The Aerospace Corporation shall protect the proprietary information of contractors, subcontractors, and suppliers in

accordance with the Master Non-disclosure Agreement The Aerospace Corporation entered into with the Air Force, a copy of which is available upon request. Each such contractor, subcontractor, or supplier hereby waives any requirement for The Aerospace Corporation to enter into any separate company-to-company confidentiality or other non-disclosure agreements.

e. Aerospace shall make the technical information (including proprietary information) available only to its Trustees, officers, employees, contract labor, consultants, and attorneys who have a need to know, and Aerospace shall maintain between itself and the foregoing binding agreements of general application as may be necessary to fulfill their obligations under the Master Non-disclosure Agreement referred to herein, and Aerospace agrees that it will inform contractors, subcontractors, and suppliers if it plans to use consultants, or contract labor personnel and, upon the request of such contractor, subcontractor, or supplier, to have its consultants and contract labor personnel execute non-disclosure agreements directly therewith.

1. Technical direction under this contract will be given to the contractor solely by the ICBM Systems Directorate.
2. Whenever it becomes necessary to modify the contract and redirect the effort, a change order signed by the contracting Officer or a Supplemental Agreement signed by both the Contracting Officer and the contractor will be issued.

H004 EXCLUSION OF FOREIGN PARTICIPATION

US-based Sellers must disclose any proposed use of foreign nationals (FN), their country(ies) of origin, the type of visa or work permit possessed, and the performance work statement (PWS) tasks intended for accomplishment by the FN(s). Sellers are advised FNs proposed to perform tasks may be restricted under US Export Control Laws due to the nature of the technical data.

RESTRICTION ON NON-U.S. CITIZENS (i.e., those holding non-US Passports): This topic is “Export-controlled”. The information and materials provided pursuant to or resulting from this topic are restricted under the ITAR, 22 C.F.R. Parts 120 – 130 or the EAR, 15 C.F.R. Parts 710 – 774. Non-US Citizens may perform work under an unclassified award resulting from this topic only if they are designated as a U.S. Person, as defined by 22 CFR §120.15 or if Seller is able to obtain an export license through the Department of State or Department of Commerce.

Non-US Citizens designated as U.S. Persons are not permitted to perform work under a classified award. Non-US citizens will at no time be allowed to work on Air Force installations. Technical information that will be provided to contractors could contain classified data and export-controlled material. The loss of classified AF technical/military information would constitute an extreme danger to US National Security and would be useful to an adversary and detrimental to the USAF development of next generation and legacy weapon systems.
