Pursuant to the contract clauses governing the U.S. Government's rights in technical data and computer software (DFARS 252.227-7013, 252.227-7014, and 252.227-7015), the Government is granted certain defined rights in all technical data (including computer software documentation) and computer software developed or delivered under this contract. The parties are also allowed to negotiate special license agreements, subject to certain limitations (e.g., see paragraph 2. below).
1. Identification and Assertion of Restrictions. If Seller (including its subcontractors or suppliers at any tier) desires to provide the Government with less than Unlimited Rights in any technical data or computer software, that technical data and computer software must be identified prior to award using the procedures and format required by the clause set forth herein entitled "Identification and Assertion of Restrictions on Technical Data and Computer Software." The license rights identified in the list(s) for technical data and computer software for Depot Level Maintenance shall provide the Government (including its support contractors) with all rights necessary to perform Depot Level Maintenance and to develop Type 1 training and to develop the ATS and MTS for support of Seller's Goods as well as to develop a Government-owned System Integration Laboratory, including at least those minimum rights specified for these purposes in paragraph 2.B below.
 2. Government's License Rights. Subject to the rights and obligations referenced in paragraph (e) of this clause, the Government shall have the following license rights:
 - A. Pursuant to the contract clauses governing rights in technical data and computer software, the Government is granted Unlimited Rights in all technical data (including computer software documentation) that is necessary for operation, maintenance (including Depot Level Maintenance), installation, or training. However, for such technical data or computer software related to items developed exclusively or partially at private expense, the Government is willing to accept less than Unlimited Rights in such technical data or computer software, as long as the Government obtains rights sufficient for Depot Level Maintenance activities and training system development activities by the Government (including its support contractors), as specified in paragraph B below.
 - B. If Seller provides the Government with less than Unlimited Rights in such technical data or computer software related to items developed exclusively or partially at private expense, the Government shall have at least the following rights in all technical data and computer software necessary for Depot Level

Maintenance and training system activities as well as to develop a Government-owned System Integration Laboratory:

- (i) For noncommercial technical data, all rights specified in (iii) and all rights included in Limited Rights (DFARS 252.227-7013(a)(13)); and for commercial technical data, all rights specified in (iii), all rights specified at DFARS 252.227-7015(b)(2) and all additional rights contained in any license customarily provided to the public.

 - (iii) In addition to the rights specified in (i) and (ii), and subject to the protections in paragraph c.3., the right to release or disclose all such technical data or computer software outside the Government, and to authorize the recipient of such information to use, modify, release, perform, display, or disclose the technical data or computer software for the sole purpose of performing or supporting:
 - (a) Depot Level Maintenance activities for the KC-46A weapon system (including the development of manuals and training systems necessary for Depot Level Maintenance activities).
 - (b) Development of the Type 1 training and the development of the KC-46A Aircrew Training System (ATS) and Maintenance Training System (MTS); and
 - (c) Development of a Government-owned System Integration Laboratory.
 - (iv) Unless authorized in writing by the party asserting restrictions on such technical data or computer software, the Government and its contractors (i.e., as recipients under paragraph (iii) above) may not use such technical data or computer software to manufacture additional quantities of any item or for any commercial purpose.
3. All contractors or other persons receiving technical data or computer software as authorized by paragraph B above shall be subject to a legal prohibition (e.g., nondisclosure agreement) against using such technical data and computer software for any purpose other than supporting the Government's Depot Level Maintenance activities, or training systems development, or development of a Government-owned System Integration Laboratory, as appropriate and authorized, for the KC-46A weapon system and equipment.

H024 Identification and Assertion of Restrictions on Technical Data and Computer Software (JUN 2010).

(This clause applies only if Seller will be delivering any data or software under this contract.)

- a. Definitions. The terms used in this clause are defined in the following clauses or sources:
 - 1. DFARS 252.227-7013;
 - 2. DFARS 252.227-7014;
 - 3. DFARS 252.227-7015;
 - 4. DFARS 252.227-7017; or
 - 5. The paragraph in Section 6 of this CCR entitled, Delivery and License Rights for Technical Data and Computer Software Necessary for Depot Level Maintenance and Training Systems
- b. Identification and Assertion of Restrictions. Seller shall not deliver or otherwise provide under this contract any technical data or computer software with restrictive markings (or otherwise subject to restrictions on access, use, modification, reproduction, release, performance, display, or disclosure) unless the technical data or computer software are identified in accordance with the following requirements:
 - 1. Pre-Award Identification and Assertion. Seller (including its subcontractors or suppliers, or potential subcontractors or suppliers, at any tier) shall identify all technical data and computer software required to be delivered or

otherwise provided (including all Option CLINs as if the Option was exercised) with less than Unlimited Rights as follows:

- A. Noncommercial Technologies. Noncommercial technical data and noncommercial computer software shall be identified pursuant to DFARS 252.227-7017.
 - B. Commercial Technologies. Seller shall also identify and assert any restrictions for all commercial computer software and commercial technical data (i.e., technical data pertaining to a commercial item) by providing the same types of information, using a similar format, and following the same procedures and requirements as specified at DFARS 252.227-7017.
 - C. Seller's failure to submit, complete, or sign the identification and assertions required by paragraphs b.1.A or b.1.B of this clause with its offer may render the offer ineligible for award.
 - D. If Seller is awarded a contract, the assertions identified in paragraphs b.1.A and b.1.B shall be listed in an attachment to that contract. Upon Buyer's request, Seller shall provide sufficient information to enable Buyer and the Contracting Officer to evaluate any listed assertions.
2. Post-Award Updates to the Pre-Award Identification and Assertions. Except as provided in this paragraph, Seller (including its subcontractors or suppliers at any tier) shall not supplement or revise the pre-award listings or notices required by paragraph b.1 of this clause after contract award.
- A. Noncommercial Technologies. Post-award identification and assertion of restrictions on noncommercial technical data and noncommercial computer software are governed by paragraph (e) of DFARS 252.227-7013 and DFARS 252.227-7014, respectively.
 - B. Commercial Technologies. Seller may supplement or revise its pre-award identification and assertion of restrictions on commercial computer software and commercial technical data only if such an expansion or revision would be permitted for noncommercial computer software or noncommercial technical data pursuant to paragraph b.2.A of this clause (i.e., based on new information, or inadvertent omissions that would not have materially affected source selection).
 - C. Upon Buyer's request, Seller shall provide sufficient information to enable Buyer and the Contracting Officer to evaluate any listed assertions.
- c. Specific Identification of Technical Data and Computer Software. When identifying and asserting restrictions on technical data and computer software pursuant to paragraph b of this clause, Seller shall—
1. Ensure that the technical data and computer software are identified by specific reference to the requirement to deliver or provide that technical data or computer software in the contract, for example, by referencing the associated CLINs, SDRLs, or paragraphs in the statement of work. Regarding any computer software that is rehosted, modified or developed exclusively or partially at Government expense, the asserted restrictions on the associated data license rights shall specifically address source code, object code, executable code, documentation, software support tools, S/SEE (software/systems engineering environment) documentation, Systems/Software Requirements Documents, Interface Control Documents, in accordance with the paragraph in Section 6 of this CCR entitled, Delivery And License Rights For Technical Data And Computer Software Necessary For Depot Level Maintenance And Training Systems hereunder.
 2. Include the relevant information for all technical data and computer software that are or may be required to be delivered or otherwise provided under the contract -- including all Option CLINs or other optional or contingent delivery requirements (i.e., presuming that Buyer will exercise the option to require delivery), online or remote access to information, and firmware or other computer software to be embedded in hardware deliverables.
- d. Copies of Negotiated, Commercial, and Other Non-Standard Licenses. Seller shall provide, in Attachments F1 and F2, copies of all proposed specially negotiated licenses(s), commercial license(s), and any asserted restrictions other than Government purpose rights; limited rights; restricted rights; SBIR data rights for which the protection period has not expired; or Government's minimum rights as specified in the clause at 252.227-7015. (Copies of Attachments F1 and F2 are attached to this CCR document.)

Prime Contract Special Provisions H001 ADDITIONAL REQUIREMENTS FOR CHANGE PROPOSALS SUBMITTED IAW FAR 52.243-01 AND 52.243-03 (AUG 2009). (a) All Engineering Change Proposals (ECPs) and Contract Change Proposals (CCPs) whether submitted at the Buyer's request or upon the Seller's own initiative, shall be submitted in accordance with this clause and Buyer's prime contract Section J, Exhibits A and C Contract Data Requirements List items titled "Engineering Change Proposal" and "Contract Change Proposal," respectively. The Buyer may at any time, in writing, request the Seller to prepare and submit an ECP or a CCP.

(b) When the Seller submits an ECP/CCP, it shall be in accordance with and contain the information required by the Statement of Work, Special Contract Requirements of this contract, and the Contract Clauses of this contract.

(c) In all instances it shall be the goal of the parties to identify changes far enough in advance to be able to negotiate and process contract modifications on a pre-priced basis. Accordingly, the Seller's proposal shall be submitted on a firm basis with appropriate cost or pricing supporting data.

(d) Specific information which must be contained in each change includes:

(1) Separate price adjustments shall be provided for each Line Item of the basic contract and each option as necessary.

(2) The Seller shall submit cost and pricing data in accordance with Table 15-2 of FAR 15.408 for all proposals in excess of the threshold set forth at FAR 15.403-4.

(e) All Change Proposals shall remain valid for a period of not less than one hundred twenty (120) days from the date of submission to Buyer.

(f) The cost of preparing Buyer requested change proposals (ECPs and CCPs) shall be included in each proposal. In the event the proposal is approved by Buyer, the negotiated price shall recognize and include the negotiated proposal preparation costs. The contract geometry for the FPIF CLINs (share ratio; profit percentage; ceiling percentage) and profit/fee rate for any post-award change or modification shall be the same, or more advantageous to Buyer, than that which was negotiated for the basic CLIN affected by the change. In the event the proposal is disapproved by Buyer, proposal preparation costs shall be negotiated. For unsolicited proposals submitted by the Seller, the Seller will absorb all proposal preparation costs as a normal cost of doing business.

(g) Service Actions. Service Actions are an OEM notification to applicable operators of a change which impacts aircraft configuration, part numbers and support services. Service Actions shall be proposed and authorized in accordance with paragraph (a) above and any other applicable requirements of the contract.

(h) The Seller shall accomplish any data changes and data deliveries associated with Class II changes at no increase in contract price. Production cut-in of Class II changes shall also be accomplished at no increase in contract price.

(i) For change proposals which include subcontracts/interdivisional transfers that are subject to a FAR 15.403-1 exception to submission of cost or pricing data, the Seller shall submit sales data and/or information other than cost or pricing data considered necessary by the Buyer to be adequate to determine a fair and reasonable price.

H025 ECONOMIC PRICE ADJUSTMENT FOR NOT-TO-EXCEED (NTE) OPTION PRICES (FEB 2010). (The following clause is included in Buyer's prime contract. It describes how economic price adjustments for NTE option prices will be computed, when appropriate.)

(a) The provisions of this EPA clause provide for both price increases and decreases to protect the Buyer and the Seller from the effects of economic changes as specified by the indices and the bands as specified in this clause. It is important to note that should the USAF modify Boeing's EPA clause then Boeing's EPA clause with suppliers shall be unilaterally modified accordingly in all KC-7A7 USAF Purchase Contracts and Purchase Change Contracts (Delivery Orders). It shall be the intent of the parties to accomplish any adjustment authorized by this clause prior to the exercise of Option Items subject to this clause. The Seller shall notify the Buyer in writing not later than 7 calendar days prior to the scheduled Option exercise date of an Option Item (0601, 0602, 0701, 0702, 0801, 0802, 0901, 0902, 1001, 1002, 1101, 1102, 1201, 1202, 1301 and 1302) if an increase or decrease in the applicable Item's Not-To-Exceed (NTE) is warranted pursuant to the terms of this clause. The Seller shall submit the Costs Subject to Adjustment (CSTA) and Costs Not Subject to Adjustment (CNSTA) amounts for each item, Aircraft and Warranty. The CSTA and the CNSTA shall be in the same relative proportion as the CSTA and the CNSTA for the proposal to definitize the NTE. The total CSTA plus CNSTA for each option item must equal the proposed NTE price calculated from Section J, Attachment 7 for the Aircraft and set forth in Attachment 9, for the Warranty. The economic price adjustment for the option item NTE shall be accomplished in accordance with the procedure detailed in paragraph (g). The Seller's proposal for an adjustment shall include supporting data, in the form required by the Buyer/Buyer's customer, explaining the calculation; and amount of the increase or decrease.

(b) Promptly after the Buyer receives the notice and data under paragraph (a) of this clause, the Buyer and the Seller shall negotiate an adjustment to the Option Item's NTE amount and update the Option Item's NTE Aircraft Unit Prices in Section J, Attachment 7 and Warranty price in Section J Attachment 9

of Buyer's Prime Contract. If the Seller fails or declines to submit the notification required by paragraph (a) above or the parties are unable to negotiate an adjustment, then not later than sixty (60) days prior to the scheduled Option exercise date, the Buyer may accomplish the adjustment calculations in accordance with this clause and unilaterally adjust the contract's affected NTE amounts accordingly. Failure of the parties to agree on a requested adjustment under this clause shall NOT affect the Buyer's right to unilaterally exercise its rights pursuant to Special Contract Requirement H013.

(c) Adjustments under this clause, if any, shall be based upon the formula specified in Paragraph (g) below. Tables 1 & 2 establish the Cost Subject to Adjustment (CSTA) and the Costs Not Subject to Adjustment (CNSTA) for each NTE Option covered by this clause. CSTA amounts are subject to either upward or downward adjustments. The CNSTA amounts include depreciation, cost of money, royalties, leases, data, fixed price subcontracts which do not contain EPA clauses, and profit. Proposed profit included in the NTEs shall not be subject to economic price adjustment.

(d) IHS Global Insight, Inc.'s index PPI336411 Aircraft (Dec 1985=100) shall be used as the standard of measurement for this clause.

(e) The following rules shall apply in making numeric calculations under this clause:

- (1) Round decimals to 4 decimal places;
- (2) Round dollar calculations to the nearest whole dollar;
- (3) Round up numbers equal to or greater than 5;
- (4) Round down numbers less than or equal to 4;
- (5) Round percentages to 2 decimal places (e.g. 3.47%).

(f) For purposes of calculating the adjustments required by this clause, the following projected average annual index rates shall apply. The source of the baseline projected indices shown below is IHS Global Insight's 4th Quarter 2009 forecast. For years beyond 2019, the last data point of escalation will be projected at the same rate (straight-lined) on an annual basis through the final NTE period of performance. Table 1 reflects the index and the projected index based on IHS Global Insight PPI336411 Aircraft (Dec 1985 = 100).

Table 1 - Baseline Projected Average Annual Index Rates

Projected Time Period	(Dec 1985=100) Index Rate
CY2015	228.9 (3.0%)
CY2016	234.5 (2.4%)
CY2017	238.8 (1.8%)
CY2018	244.1 (2.2%)
CY2019	250.1 (2.4%)
CY2020	256.1 (2.4%)
CY2021	262.2 (2.4%)
CY2022	268.5 (2.4%)
CY2023	274.9 (2.4%)
CY2024	281.5 (2.4%)
CY2025	288.3 (2.4%)
CY2026	295.2 (2.4%)
CY2027	302.3 (2.4%)
CY2028	309.6 (2.4%)

(g) The economic price adjustment shall be calculated as follows:

(1) The contractor shall obtain IHS Global Insight's current projected annual index values for the above projected time periods. For FY NTE values, use the same CY index values, for example NTE FY 2022 will use CY 2022 index values.

(2) Divide this current projected annual index by the baseline projected average annual index rate identified in paragraph (f) above for that particular year;

(3) Subtract 1 from this result and multiply the resulting answer by 100;

(4) Adjustment for Lots 3 - 5: If the resulting value is greater than or equal to +2.5%, calculate the upward adjustment by multiplying the result by the proposed CSTA dollar amount. If the resulting value is between - 2.5% and +2.5%, do not calculate an adjustment. If the resulting value is less than

or equal to -2.5%, calculate the downward adjustment by multiplying the result by the CSTA dollar value proposed.

(5) Adjustment for Lots 6 - 13: If the resulting value is greater than or equal to +1.00%, calculate the upward adjustment by multiplying the result by the proposed CSTA dollar amount. If the resulting value is between -1.00% and +1.00%, do not calculate an adjustment. If the resulting value is less than or equal to -1.00%, calculate the downward adjustment by multiplying the result by the proposed CSTA dollar value.

(h) Notional Computation worksheet:
Example calculation for Lots 3 - 5:

STEP	FORMULA	Example 1 CY2020 RESULT	Example 2 CY 2020 RESULT	Example 3 CY2020 RESULT
1	Global Insight's Projected Annual Index (7 days prior to option exercise)	248.5	252.5	265.5
2	Baseline Projected Average Annual Index Rate from paragraph (f) Table 1	256.1	256.1	256.1
3	Divide Step 1 by Step 2 and round to 4 decimal places	.9703	.9859	1.0367
4*	Subtract 1 from Step 3 and multiply by 100 to convert to %	-2.97%	-1.41%	3.67%
5	Input applicable CSTA value for aircraft and engines from the annual EPA proposal	\$3.0B		\$3.0B
6	Adjustment (Multiply Step 5 by Step 4)	-\$89.1M		\$110.1M
7	Applicable NTE Price (annual EPA proposal)	\$3.5B		\$3.5B
8	Adjusted NTE Price	\$3.4109B	No Change	\$3.6101B

* If the resulting value is between -2.50% and +2.50%, no adjustment will be calculated; therefore, do not proceed to Step 5.

EXAMPLE 1: The EPA adjustment is a \$89,100,000 decrease in the NTE Price.

EXAMPLE 2: There is no EPA adjustment since the trigger band was not exceeded.

EXAMPLE 3: The EPA adjustment is a \$110,100,000 increase in the NTE Price.

(i) Once an adjustment to an eligible Item's NTE amount has been accomplished under this clause, or a determination made that no adjustment is permitted pursuant to paragraph (g)(4) above, said Item shall not be subject to further Economic Price Adjustment.

(j) In the event the IHS Global Insight Indices used are discontinued; or if IHS Global Insight suspends publication of an index identified in paragraph (d) above or significantly alters the method of calculating the index, the parties shall agree upon an appropriate substitute index for use under this clause. If the parties cannot agree on a substitute or comparable index within 90 calendar days after an index has been discontinued or altered in method of calculation, the Contracting Officer may, acting unilaterally and subject to Contractor appeal in accordance with paragraph (k) below, either adopt the IHS Global Insight index as altered or establish a new index.

(k) Any dispute arising under or related to the terms and/or procedures set forth in the foregoing paragraphs shall be resolved in accordance with the provisions of this contract's Disputes clause.

H027 SUPPORT FOR FUTURE MODIFICATIONS (JAN 2010). If the Buyer pursues any future modification to the KC-X weapon system or equipment, the Seller agrees to support the design, certifications, approvals, and installation of such modification, regardless of whether the Buyer procures the modification from the Original Equipment Manufacturer or from a third party manufacturer. The Seller's support shall include, as necessary, the same engineering consultation, analyses, and access to technical data and licenses which are made available to commercial customers. The Seller's

support will be provided on at least as favorable terms as the Seller's best available commercial practices, rates, terms, and conditions at the time of the effort. The price for any support provided by the Seller in accordance with this special contract provision shall be negotiated by the parties after the Buyer identifies the nature and scope of the support effort required.

H016 CONTRACTOR IDENTIFICATION (APR 2009). (a) Seller personnel and their subcontractors must identify themselves as Seller personnel or subcontractors during meetings, telephone conversations, in electronic messages, or correspondence related to this contract.

(b) Seller-occupied facilities (on AFMC or other Government installations) such as offices, separate rooms, or cubicles must be clearly identified with Seller supplied signs, name plates or other identification, showing that these are work areas for Seller or Seller subcontractor personnel.
