FA8720-10-D-0002 ORGANIZATION CONFLICT OF INTEREST .

a. It is understood and agreed that the contractor, under the terms of this contract, or through the performance of the statement of work made a part of this contract, shall report any potential organizational conflict of interest (OCI), which could serve as a basis for excluding the contractor from supplying products or services to the ordering DOD agencies. Further, during the course of this contract, the Contracting Officer (CO) will not knowingly unilaterally direct the contractor to perform work, in contravention of the above understanding. It will be the contractor's responsibility to identify any situation in which the potential for an OCI exists. However, if the CO discerns the potential for an OCI prior to or during the execution of any task or amendment thereto, the CO shall notify the contractor, and the contractor shall take immediate action to resolve any potential OCI. For the purposes of this clause, an organizational conflict of interest means that a company is (1) unable or potentially unable to provide objectivity in performing the contract work; (2) unable or potentially unable to render impartial assistance or advice to the Government; and/or (3) has an unfair competitive advantage. An OCI may result when factors create an actual or potential conflict of interest on an instant contract, or when the nature of the work to be performed on the instant contract creates an actual or potential conflict of interest on a future acquisition. In the latter case, the CO may notify the contractor to discuss restrictions on future activities.

b. An OCI may be caused by a company's activities or relationships. Furthermore, a company is responsible for monitoring potential OCI of its representatives to include its organic resources, team members, and subcontractors.

c. The contractor may gain access to proprietary information of other companies during contract performance. The Contractor agrees to enter into company-to-company agreements to (1) protect another company's information from unauthorized use or disclosure for as long as it is considered proprietary by the other company and (2) to refrain from using the information for any purpose other than that for which it was furnished. For information purposes, the contractor shall furnish copies of these agreements to the Contracting Officer. These agreements are not intended to protect information which is available to the Government or to the contractor from other sources and furnished voluntarily without restriction.

d. The contractor agrees to accept and to complete issued delivery orders, provided that no new OCI are created by the acceptance of that order. It is the contractor's responsibility to identify and evaluate potential OCI as early as possible. The contractor shall notify the CO of any identified potential OCI to avoid creating unnecessary delays in contract execution. The contractor shall not contract with Government prime contractors or any subcontractors in such a way as to create an OCI.

e. The above restrictions shall be included in all subcontracts, teaming arrangements, and other agreements calling for performance of work which is subject to the OCI restrictions identified in this clause, unless excused in writing by the Contracting Officer.

f. The Government may at its discretion request that the Contractor submit an OCI mitigation plan or update an existing plan. This plan will be evaluated to determine if an actual OCI exists and whether sufficient safeguards exist that render the offeror eligible for DO award. Under some circumstances, an OCI mitigation plan may not be sufficient to correct an OCI, so submitting an OCI mitigation plan does not guarantee that a company will be successful in mitigating an OCI. Failure to submit such a plan when an OCI is present will render the offeror ineligible for DO awards. Similarly, failure to mitigate an OCI will also render an offeror ineligible for DO awards.
