**478 AEWS -H002 Authorization to Use Other Than New Material (OCT 2006).**

(a) Support services capability is performance-based support of the flying hour program (e.g. field service representatives, heavy maintenance capability, support engineering, etc). Support material capability provides spares as required to meet the flying hour program in a manner that is consistent with specific performance based results. In order to effectively implement this concept, the following authorization to use other than new material shall pertain to all F-22 contracts.

(b) Authorization to use other than new material: In order to implement the support material capability concept in a manner that ensures maximum flexibility and efficiency, it may become necessary to utilize "other than new" materials in the performance of one or more contracts in the F-22 program. "Other than new" material is defined on the Engineering and Manufacturing Development (EMD) contract (F33657-91-C-0006) under the clauses at FAR 52.210-5, New Material (APR 1984) and FAR 52.210-7, Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property (APR 1984). On the PRTV/PRTV II contract (F33657-97-C-0030) it is defined under the clause at FAR 52.211-5, Material Requirements (OCT 1997), and on the Lot 1, Lot 2, Lot 3, Lot 4, Lot 5, Lot 6, and Lot 7 contracts (F33657-99-C-0036, F33657-00-C-0020, F33657-01-C-2095, F33657-02-C-0010, FA8611-04-C-2851 and FA8611-05-C-2850, FA8611-06-C-2899 respectively) it is defined under the clause at FAR 52.211-5, Material Requirements (AUG 2000). These clauses (and any substantially similar clauses in later contracts) require the use of new materials in the performance of the contract requirements, unless the use of "other than new" material is authorized in writing by the Contracting Officer. Subject to the conditions referenced in paragraph (c) below, the Contracting Officer hereby authorizes the use of "other than new" materials in the performance of this contract. To the extent allowed by paragraph (c) below, this authorization includes the use of material previously available to or accepted by the Government and returned to the contractor as Government Furnished Property (GFP).

(c) Conditions on the authorization to use other than new material: The above authorization to use "other than new" material in the performance of this contract is subject to the conditions listed below. Any potential use of "other than new" material that does not meet all the conditions listed below shall be evaluated on a case by case basis by the Contracting Officer in accordance with the applicable clause(s) referred to in paragraph (b) above. 1) Suitability for the intended use: The "other than new" material to be used in the performance of this contract must be suitable with respect to form, fit, function, and interface, and may not create limitations to the weapon system performance, supportability, or effectiveness in performance of the assigned mission. 2) Condition: The "other than new" material to be used in the performance of this contract must be in a serviceable condition without creating additional operational limitations. All Time Change Items (TCIs) to be used as "other than new material" shall have at least 40% or not less than 400 flight

hours of useful life remaining, whichever is higher. Parts or components identified as "bad actors" (as defined by Chapter 8, T.O. 00-35D-54) shall not be used. 3) Safety of flight: The "other than new" material to be used in the performance of this contract must not create a safety of flight risk. 4) Proper configuration: The "other than new" material to be used in the performance of this contract must conform to the authorized configuration of the end item for which such material is to be used. If a preferred sparing activity applies, the "other than new" material must conform to the preferred configuration.

(d) Asset Management Prioritization: The contractor shall make the day to day decisions and authorize the movement of assets in accordance with the Uniform Material Movement and Issue Priority System (UMMIPS) defined by Air Force Manual (AFMAN) 23-110. When the minimum requirements of the production program conflict with those of the field support or test programs (or vice versa), the contractor shall notify the Contracting Officer prior to utilizing an asset otherwise needed to fulfill the minimum requirements of the affected program. Deviations from or exceptions to the above priority requirements shall require written direction from the Contracting Officer. Any equitable adjustments to the contract(s) price and/or schedule (if appropriate) shall be executed in accordance with the "Changes" clause of this contract.
