- (2) the Seller does not obtain unfair competitive advantage by virtue of its access to non-public information regarding the Government's program plans and actual or anticipated resources; and
- (3) the Seller does not obtain unfair competitive advantage by virtue of its access to proprietary information belonging to others.

b. Scope: Organizational Conflict of Interest (OCI) rules, procedures and responsibilities as described in FAR Subpart 9.5 shall be applicable to this contract and any resulting subcontracts.

- (1) The general rules in FAR 9.505-1 through 9.505-4 and the restrictions described herein shall apply to performance or participation by Seller and any of its affiliates or their successors-in-interest (hereinafter collectively referred to as "Seller") in the activities covered by this contract as Seller, subcontractor, co-sponsor, joint venturer, consultant, or in any similar capacity.

used in FAR Subpart 9.5. To facilitate disclosure and Buyer and Buyer's Customer's approval, Seller shall complete an OCI Analysis/Disclosure Form for each MDA, Ballistic Missile Defense (BMD), and BMD-related contract or subcontract (form shall be requested from Buyer).

(2) Seller represents that if it discovers an organizational conflict of interest or potential conflict of interest after award, a prompt and full disclosure shall be made in writing to Buyer. Except as otherwise set forth in the Contract, the distribution of any technical documents prepared under this contract, in any stage of development or completion, is prohibited outside of Seller and applicable subcontractors under this contract unless authorized by Buyer in writing. However, distribution of technical data is permissible to DOD officials having a "need to know" in connection with this contract or any other MDA contract provided that the technical data is properly marked according to the terms and conditions of this contract. When there is any doubt as to "need to know" for purposes of this paragraph, Buyer will provide direction. Authorization to distribute technical data by Buyer does not constitute a warranty of the technical data as it pertains to its accuracy, completeness, or adequacy. Seller shall distribute this technical data relying on its own corporate best practices and the terms and conditions of this contract. Consequently, the Government assumes no responsibility for the distribution of such technical data nor will the Government have any liability, including third party liability, for such technical data should it be inaccurate, incomplete, improperly marked or otherwise defective. Therefore, such a distribution shall not violate 18 United States Code § 1905.

c. All technical documents prepared under this contract shall be marked with the following distribution statement, warning, and destruction notice identified in sub-paragraphs 1, 2, and 3 below. When it is technically not feasible to use the entire WARNING statement, an abbreviated marking may be used, and a copy of the full statement added to the "Notice To Accompany Release of Export Controlled Data" required by DoD Directive 5230.25.

Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25
3. DESTRUCTION NOTICE - For classified documents follow the procedures in DOD 5220.22-M, National Industrial Security Program Operating Manual, February 2006, Incorporating Change 1, March 28, 2013, Chapter 5, Section 7, or DoDM 5200.01-Volume 3, DoD Information Security Program: Protection of Classified Information, Enclosure 3, Section 17. a. To maintain the security of the MDA spaces and information systems, Seller shall notify Buyer

in writing whenever a Seller or subcontractor employee included on the current Visit Authorization Request/Letter no longer supports this contract. This requirement shall apply to both Seller and employee initiated termination of services and to temporary suspension of services.

b. Seller will cooperate with Buyer in facilitating the employee's return of all government issued credentials, e.g., badges, common access cards (CACs), SIPRNet tokens. Specifically, upon notification, Buyer will work with the organization's Security Operations Center and the MDA Service Desk to ensure timely action to:

- (1) remove the employee from the current visit authorization request/letter;
- (2) cancel Government issued credentials pursuant to the visit authorization request/letter; and,
- (3) terminate the MDA LAN account/access privileges.

c. In addition to actions related to MDA access control, Seller shall maintain accountability for Government issued credentials provided under this contract. Government issued credentials are the property of the U.S. Government and shall not be retained by cardholders upon expiration, replacement, or when the DoD affiliation of employees has been terminated. a. DoD 5200.2-R, DoD Personnel Security Program, requires Seller personnel, who perform work on sensitive Information Technology (IT)/Automated Data Processing (ADP) systems (hereafter referred to as IT), to be assigned to positions which are designated at one of three sensitivity levels (IT-I, IT-II or IT-III). These designations equate to Critical Sensitive, Non-Critical Sensitive, and Non-Sensitive. Working On-Site in any MDA Facility requires a minimum Sensitivity of IT-II. The following investigations are required:

- IT-I designated positions require a Single Scope Background Investigation (SSBI).
- IT-II designated positions require a National Agency Check with Law and Credit (NACLC).
- IT-III positions associated with MDA are found only at contractor's facilities. See below for requirement.

b. The required investigation will be completed prior to the assignment of individuals to sensitive duties associated with the position.

A copy of the negotiated license shall be furnished to the PCO, through Buyer. The terms of the licenses cannot be inconsistent with Federal procurement law and must satisfy user needs. This includes Buyer's/ Seller' / subcontractor's needs for the software to perform this contract and the Government's needs for the software to accomplish the Government's ultimate objectives. At a minimum, this shall include the rights to make an archive copy of the software, to relocate the computer on which the software resides, to re-host the software on a different computer, to permit access by support contractors, and to permit the Government to transfer the license to another contractor.

a. DFARS 252.227-7014(d) requires the written approval of the PCO (to be obtained through Buyer) before the Seller may incorporate any copyrighted computer software in the software to be delivered under this contract.

b. A request for approval to incorporate Commercial Computer Software should be accompanied by a license that conforms with the requirements of the Commercial Computer Software Licenses clause of this contract.

c. A request for approval to incorporate Open Source Software must be accompanied by the applicable license, a detailed description of the source of the software and how it has been or will be used, and an explanation of the restrictions imposed and potential risks and liabilities.

Data and computer software generated in the performance of this contract and provided to the Buyer or Government that is not otherwise required to be (1) formally delivered as a result of a CDRL or (2) included on the DAL, may (in order to facilitate maximum collaboration between the parties) include non-conforming markings to the extent necessary to protect Seller's intellectual property rights, with the exception of such technical data and computer software for which the Government has Unlimited rights as set forth in DFARS 252.227-7013 and 252.227-7014.

c. Limited or Restricted rights technical data or computer software as specified in DFARS 252.227-7013 and 252.227-7014 shall not be delivered under or in conjunction with this contract without prior approval of the Buyer. If files contain links, the links must be intact and maintained throughout all revisions. Documents with embedded data that are not related to Seller performance reports, contract funds status reports, cost data summary reports, or functional cost-hour reports shall not contain Seller pricing information within the embedded data. Nor shall embedded data to unclassified documents be classified information.

12. FEE

Seller shall implement the following elements of cost and fee for use in the preparation of proposals and to support negotiations.

a. No Fee on Other Direct Cost (ODCs). ODCs are costs (other than labor and materials) directly

associated with the final cost objective. With the exception of nominal material handling, the Contractor is not entitled to fee on any ODCs. Examples of ODC include, but are not limited to: travel, consumables, renewable licenses, leases, consultants, special tooling, and royalties. This limitation shall flow down to all tiers of subcontractors. Not applicable to fixed price subcontract arrangements.

Seller is responsible for scheduling the use of all property covered by the referenced contract and providing timely written notification to Buyer of any conflicts, delays, or disruptions to any work performed by the Seller due to use of any or all of such property under this contract or any other contracts under which use of such property is authorized. The Seller will not be relieved of its contractual responsibilities if for any reason Government Property is not available or is not functioning or suitable for the contractor's intended purpose.

15. INSERTION OF LIMITED OR RESTRICTED RIGHTS INTO THE GMD PROGRAM

Hardware items which are subject to Limited Rights in their associated technical data as defined in DFARS 252.227-7013 and software items which are subject to Restricted Rights as defined in DFARS 252.227-7014 shall not be incorporated into the design of the GMD weapon system or models/simulations thereof under this contract without the prior written authorization of the PCO, which shall be obtained through Buyer. Seller's request shall include a rough order of magnitude (ROM) estimate to perform development if the data or software cannot be used as requested. If Buyer does not provide a decision within 60 days of the request, the request is considered denied. In the event Buyer authorizes inclusion of the Limited Rights technical data and/or Restricted software, such data or software will be added as an Attachment.

With respect to the Redesigned Kill Vehicle (RKV) design and development effort, Redesigned Kill Vehicle (RKV) Path to System Review (SRR), and any and all assertions of less than Government Purpose Rights made by Seller or any of its subcontractors/suppliers on this contract or any other government contract, are inapplicable to the RKV effort. Seller and its subcontractors/suppliers shall submit any and all RKV-related assertions of less than Government Purpose Rights in technical data as well as computer software to the PCO (through Buyer) for consideration in accordance with this clause. In the event the PCO (through Buyer) authorizes inclusion of the Limited Rights technical data and/or Restricted Rights software for the RKV-related effort, such technical data or computer related assertions will be added as a separate attachment.

Using Government assets in an Independent Research and Development (IRAD) project may be authorized on a case by case basis. Seller's request shall include an offer of consideration for use of such Government assets. Buyer will evaluate the request, including the Seller's offer of consideration, and either approve, deny, or offer an alternative form of consideration. Any such

consideration will be mutually agreed to by the parties prior to use of Government assets. Consideration should include, at a minimum, specially negotiated rights granting the Government a license for Government Purpose Rights IAW DFARS 252.227-7013 and 252.227-7014 in the subject IRAD project. When the Seller requests the use of Government assets for an IRAD project, the request shall include the purpose of the IRAD project and the potential benefit to the Government. The Seller will be required to execute a bailment agreement prior to the transfer or use of Government assets.

16. COST ESTIMATING METHODS

The following cost estimating methods shall be used as requested by the Government:

- a. Planning Estimate - The purpose of a planning estimate is to support Government planning. Planning estimates may only be requested by the Buyer. A planning estimate shall be provided in 1-2 calendar days. This estimate is very limited in scope, involves minimal pricing ground rules and assumptions from the Government, and is generally comprised of ranges/parametrics. Documentation provided shall be high level scope and funding estimates by Government fiscal year sent via email.
- b. Rough Order of Magnitude (ROM) - The purpose of a ROM estimate is to support Government budgetary decisions and potential authorization of unpriced actions in the event there is insufficient time for a Not-to-Exceed (NTE) estimate. ROM estimates may only be requested by Buyer. ROM estimates shall be provided to the Government within 5 calendar days. This non-binding estimate is limited in scope, involves limited analysis, and develops a high level baseline to include a high level SOW, schedule, and equipment lists. The ROM estimate is not generated based on formal Basis of Estimates (BOEs) and by design provides limited supporting rationale. Subcontractor input will be included if schedule allows. Documentation provided shall include scope and funding estimates by Government fiscal year in a briefing package submitted by contracts letter to Buyer.
- c. Not-to-Exceed (NTE) - The purpose of an NTE estimate is to support critical Government budgetary decisions, and a binding basis on which to issue unpriced actions. NTEs may only be requested by Buyer. NTE estimates shall be provided to Buyer within 10 calendar days or as designated by Buyer. This estimate involves more in depth analysis, develops a baseline to include a statement of work, schedule, and required equipment lists. The NTE estimate shall be based on Basis of Estimate (BOEs) and estimated materials (as required), including supporting rationale. Applicable subcontractor input shall be included as required. Documentation required shall include scope and funding estimates by Government fiscal year in a briefing package submitted by Seller. Seller's NTE must be valid for a minimum of one hundred eighty (180) calendar days.

17. IMPACT OF GOVERNMENT TEAM PARTICIPATION/ACCESS

Under the Government/Buyer organizational/interface approach (e.g., Integrated Product Team (IPT), Team Execution Review (TER), Technical Interchange Meeting (TIM), and/or Working Groups), Government personnel will frequently interface with Buyer and Seller/subcontractor team members during contract performance. For this purpose, Buyer has authorized the Government to communicate and, where appropriate, visit and monitor directly, and, in some instances, exclusively, with Seller and Seller's subcontractors. The Government shall endeavor to provide advance notice to Buyer and Seller. This access/interface is necessary to support the Government's quality management approach, which emphasizes systematic surveillance and evaluation techniques used to assess Seller/subcontractor performance stipulated in its Quality Assurance Surveillance Plan (QASP). Government team members may offer advice, information, support, clarification, and/or facilitate rapid Government feedback and approval of team-related products, as well as review Buyer and Seller/subcontractor progress; however, the responsibility and accountability for successfully accomplishing the requirements of this contract remain solely with the Seller. Seller shall not construe such advice, information, surveillance observations, reviews and clarifications by the Government team members as Government-directed changes to the terms of this contract. The Boeing Procurement Agent is the only individual who is authorized

to direct or approve any change to the terms of this contract.

18. CONTRACTOR IDENTIFICATION AND ASSERTION OF RESTRICTIONS ON THE GOVERNMENT'S USE, RELEASE, OR DISCLOSURE OF NON-COMMERCIAL TECHNICAL DATA OR COMPUTER SOFTWARE

The Seller and its subcontractors shall provide a completed Attachment in accordance with DFARS 252.227-7017 entitled "Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software" that is signed and dated by a responsible official of the Contractor. The Attachment(s) (Attachment 24 –Contractor Assertion of Rights In Technical Data-Noncommercial Items and Attachment 25 – Contractor Assertion of Rights in Noncommercial Computer Software and Noncommercial Software Documentation) are incorporated herein by reference as if fully set forth. The Attachment(s) identifies and provides information pertaining to technical data (including computer software documentation) and computer software that the contractor and subcontractors claim to qualify for delivery with less than Unlimited Rights. The contractor agrees not to withhold delivery of the technical data or software based on its claims. The Government shall investigate the validity of the contractor's claims and therefore reserves all its rights regarding the technical data/software in question, to include those rights set forth in: DFARS 252.227-7013 Rights in Technical Data -Noncommercial Items (Nov 1995); DFARS 252.227-7014 Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation (Jun 1995); DFARS 252.227-7019 Validation of Asserted Restrictions--Computer Software (Jun 1995); DFARS 252.227-7028 Technical Data or Computer Software Previously Delivered To the Government (Jun 1995); and, DFAR 252.227-7037 Validation Of Restrictive Markings On Technical Data (SEP 1999) clauses until a determination is made. The Seller shall have, maintain, and follow written procedures sufficient to assure that restrictive markings/legends are used only when authorized by the terms of this contract and shall maintain records sufficient to justify the validity of any restrictive markings/legends on any technical data or computer software or computer software documentation delivered under this contract. Seller agrees that the Government has Unlimited Rights as defined by DFARS 252.227-7013 and 252.227-7014 in any deliverable technical data or computer software or computer software documentation not listed in the Attachment and that such data or software will not be subject to any restrictive markings or legends.

19. TEST SCHEDULE ADJUSTMENTS

Adjustments made to contract price due to a change in the ground and/or flight and/or other test schedule will be accomplished as set forth below:

A change to the test schedule means the movement of a test from one test window to the next. A test window is defined as a period of time 90 days before or after the test date as it appears in the Integrated Master Test Plan (IMTP) or a Target of Opportunity published schedule. The movement of a test within a test window will not be grounds for an adjustment to the contract price. Test schedule changes outside of the original test window caused by the Seller or the Government may result in a downward or upward adjustment to the contract price. A change that is beyond the control and without the fault or negligence of the either party will not result in an adjustment to the contract price.

20. PROPERTY NECESSARY TO PERFORM THE CONTRACT

(a) The contract costs reflect the Seller's provision of all property necessary to perform under a the contract. In the event that such Government property becomes available for use by the Seller to perform under the contract, cost will be subject to, at Buyer's discretion, a unilateral downward adjustment. Such an adjustment will be based on the proposed cost of the Seller provisioning the property less actual costs incurred as a direct charge to the Contract. An adjustment modification will be issued to reflect the Buyer's determination to adjust the contract cost.

(b) Seller disagreements with a determination made by Buyer pursuant to this clause shall be a dispute under the Disputes clause. However, nothing in this clause nor any Buyer determination

made in conjunction with this clause shall excuse Seller from proceeding with its duties under the instant contract.

21. SELLER ACCOUNTABILITY FOR QUALITY

(a) Definitions as used in this clause—

“Command media,” as used in this clause, includes Seller’s specifications, engineering drawings, test procedures, and other documentation generated to comply with Statement of Work (SOW) requirements ensuring repeatability in the products produced and services provided.

“Nonconformance” as used in this clause means a condition of any hardware, software, material, or service/workmanship in which one or more characteristics do not conform to requirements.

“Quality escape,” as used in this clause, means Seller or any of its subcontractors:

- (1) failed to detect a nonconformance or failed to follow command media; and
- (2) said nonconformance or failure to follow command media could adversely affect the performance of a component, subsystem or system; and
- (3) requires an action by the Seller to bring said item back to compliance with applicable specification requirements.

(b) The rights and remedies afforded Buyer and Seller under this clause are in addition to any other provision of this contract.

(c) Buyer may make an equitable reduction in any item performance incentive fee previously paid under the contract, or payable in the current fiscal year, if at any time during the term of this contract, including pre-acceptance or post-acceptance of any item or service required to be delivered or performed under this contract, Buyer reasonably determines that:

- (1) a quality escape occurred; and
- (2) the quality escape was caused solely by Seller, or any of its subcontractors; and
- (3) resulted in substantial harm to Buyer and/or the Government.

Buyer will notify the Seller within 30 days of determining a quality escape occurred for which an equitable reduction may result.

(d) Buyer will consider cost, schedule and performance impacts of the quality escape as well as any recovery and mitigation efforts by the Seller that are taken to reduce the impacts of the quality escape, in deciding whether to make such a reduction. Failure to agree to the reduction in performance incentive fee shall be a dispute under the Disputes Clause of the Contract.

Reductions associated with quality escapes shall apply to future DSC deliveries and shall not be levied against hardware and software delivered under the current contracts (HQ0006-01-C-0001 & HQ0147-09-C-0008)

22. PUBLIC RELEASE OF INFORMATION (Jun 2013)

g. Abstracts or abbreviated materials may be submitted if the intent is to determine the feasibility of going further in preparing a complete paper for clearance. However, clearance of abstracts or abbreviated materials does not satisfy the requirement for clearance of the entire paper.

h. The MDA Director of Public Affairs (MDA/PA) is responsible for coordinating the public release review. MDA/PA will work directly with the COR if there are questions or concerns regarding submissions. MDA/PA will not work with contractors who have not gone through their COR.

i. The COR will notify Buyer of the agency's final decision regarding the status of the request.

j. Once information has been cleared for public release, it is in the public domain and must always be used in its originally cleared context and format. Information previously cleared for public release but containing new, modified or further developed information must be submitted again for public release following the steps outlined in items a. through h. above.

23. DD Form 254 Flowdown Requirements

If any drawing, statement of work, or data is marked CUI/FOUO then acceptance of a purchase order or response to an RFQ is considered the vendor's full acceptance of the CDI requirement as defined by Buyer's applicable DD245 sections 10j and 11c.

If Seller is unable to meet applicable CDI requirements but will be able to become compliant the vendor must be able to furnish a security system plan that fully addresses and is fully compliant with DFARS 252-204-7012, NIST-800-171, and all applicable industry standards in conjunction with a plan of action and milestones for Buyer review.
