Offerors are encouraged to inform the Contracting Officer of any potential conflicts of interest, including those involving contracts with other Government organizations, before preparing their proposal to determine whether the Government will require mitigation of those conflicts. If the successful offeror was aware, or should have been aware, of an organizational conflict of interest before award of this contract and did not fully disclose that conflict to the Contracting Officer, the Government may terminate the contract for default.

(b) If during contract performance the contractor discovers an organizational conflict of interest involving this contract, the contractor agrees to make an immediate and full disclosure in writing to the Contracting Officer. The contractor must provide detailed information to the Contracting Officer as to the specifics of the situation immediately upon its recognition. Based on the severity of the conflict, the Contracting Officer may direct the contractor to take certain actions, revise current work effort, or restrict the contractor's future participation in Government contracts as may be necessary to appropriately neutralize, mitigate, or avoid the organizational conflict of interest.

(d) If necessary to mitigate organizational conflict of interest concerns, or when directed to do so by the Contracting Officer, the contractor shall submit an organizational conflict of interest mitigation plan for approval. The plan must describe how the contractor will mitigate, neutralize, or avoid potential and/or

actual conflicts of interest or unfair competitive advantages. After approval of the mitigation plan, the contractor must conduct a yearly self-assessment and submit an annual certification of compliance with the terms of the plan signed by a corporate official at the level of Vice President or above. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered "developed," the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component, or process be actually reduced to practice within the meaning of Title 35 of the United States Code.

The Government may release the technical data or computer software to any third party. The contractor is not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data and computer software furnished to the Government with limited rights. However, if the Government desires to obtain additional rights in technical data and computer software in which it has limited rights, the contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. Limited rights pertain to items, components, software code, software programs, or processes developed exclusively at private expense and marked with the limited rights legends prescribed by this clause or items, components, software code, software programs, or processes created exclusively at private expense in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes. (ii) Studies, analyses, test data or similar data, and computer software, when the study, analysis, test, similar work, or computer software documentation was specified as an element of performance.

(iii) They are created exclusively with Government funds in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(iv) The contractor corrects or changes/modifies technical data or computer software furnished by the Government or they have previously or are currently being provided with unlimited rights under another Government contract.

(vi) They were furnished to the Government, under this or any other Government contract or subcontract there under, with Government purpose license rights or limited rights and the restrictive condition(s) has/have expired or Government purpose rights and the contractor's exclusive right to use such data for commercial purposes has expired.

(ii) The contractor shall submit such assertion(s) to the Contracting Officer as soon as practicable but prior to the scheduled date for delivery of the technical data, computer software, or computer software documentation. An official authorized to contractually obligate the contractor must sign the assertion(s). The contractor assertion(s) must contain a detailed description of the item, the asserted rights category in paragraph (b) of this clause, and the basis of the assertion including all necessary supporting documentation. Generally, the development of an item, component, software code/program, or process exclusively at private expense is the only basis for asserting restrictions after award. If development was not exclusively at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

(iii) The Contracting Officer may request the contractor to provide sufficient information to enable the Government to evaluate the contractor's assertion(s).

(h) Marking Requirements. The contractor may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data and computer software to be delivered under this contract by marking such technical data and computer software. The marking shall be in the form of legends on the technical data and computer software. Only the legends found in paragraphs (h) (ii), (h) (iii), and (h) (iv) are authorized under this contract. The notice of copyright prescribed under 17 U.S.C. 401 or 402 is also allowed.

(i) General marking Instructions. The contractor shall conspicuously and legibly mark the appropriate legend on all technical data and computer software that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data or computer software for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, annotating, or other appropriate identifier. Technical data and computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. Reproductions of technical data and computer software, or any portions thereof subject to asserted restrictions, shall also reproduce the asserted restrictions.

(ii) Government Purpose Rights Legend. Technical data or computer software delivered or otherwise furnished to the Government with Government purpose rights shall be marked as follows:

Government Purpose Rights

Contract No: \_\_\_\_\_

Contractor Name: \_\_\_\_\_

Contractor Address: \_\_\_\_\_

Expiration Date: \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data and computer software are restricted by paragraph (b)(2) of this Clause. No restrictions apply after the expiration date shown above. Any reproduction of technical data or computer software, or portions thereof marked with this legend, must also reproduce the markings.

(End of legend)

(iii) Limited Rights Markings. Technical data and computer software delivered or otherwise furnished to the Government with limited rights shall be marked as follows:

Limited Rights

Contract No: \_\_\_\_\_

Contractor Name: \_\_\_\_\_

Contractor Address: \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data and computer software are restricted by paragraph (b)(3) of this Clause. Any reproduction of technical data or computer software, or portions thereof marked with this legend, must also reproduce the markings. Any person, other than Government officials or others specifically authorized by the Government, who has been provided access to this technical data or computer software must promptly notify the above named contractor.

(End of legend)

(iv) Special License Rights Markings. Data, computer software, or computer software documentation in which the Government's rights stem from a specifically negotiated license shall be marked with the following legend:

Special License Rights

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this data and/or software are restricted by \_\_\_\_\_ [Insert contract number and license identifier]. Any reproduction of technical data, computer software, computer software documentation, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(v) Pre-Existing Data Markings. If the terms of a prior contract or license permitted the contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data and computer software deliverable under this contract, and those restrictions are still applicable, the contractor may mark such data with the appropriate restrictive legend for which the data qualified under the prior contract or license. The marking procedures in paragraph (h) (1) of this clause shall be followed.

(vi) Removal of Unjustified and Nonconforming Markings. The rights and obligations of the parties regarding the validation of restrictive markings on technical data and computer software furnished or to be furnished under this contract are contained in the Validation of Restrictive Markings on Technical Data and Computer Software clause of this contract. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore, or, at the contractor's expense, correct or strike a marking if, in accordance with the procedures in the Validation of Restrictive Markings on Technical Data and Computer Software clause of this contract, a restrictive marking is determined to be unjustified.

(vii) Nonconforming Technical Data and Computer Software Markings. A nonconforming marking is a legend or other marking placed on technical data and computer software delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. If the Contracting Officer notifies the contractor of a nonconforming marking and the contractor fails to remove or correct such marking within sixty (60) days, the Government may ignore or, at the contractor's expense, remove or correct any nonconforming marking.

(i) Relation to Patents. Nothing contained in this clause shall imply a license to the Government under any patent, or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) Technical Data/Computer Software Reporting. To ensure timely accounting and delivery of technical data and computer software, every ninety days the contractor shall provide the Contracting Officer a technical data and computer software delivery schedule listing all such deliveries necessary for contract completion or incidental to, or developed with or for, other contract deliverables as a segregable item or part of the contracted level of effort provided under the contract.

(k) Limitation on Charges for Rights in Technical Data and Computer Software. The contractor shall not charge to this contract any cost, including, but not limited to, license fees, royalties, or similar charges, for rights in technical data and computer software to be delivered under this contract when the Government has acquired, by any means, the same or greater rights in the data on another contract, or when the

technical data or computer software are available to the public without restrictions. This limitation does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data and computer software will be delivered.

(l) Applicability to Subcontractors, Vendors, and Suppliers. The contractor shall ensure that the rights afforded its subcontractors, vendors, and suppliers under 10 U.S.C. 2320, 10 U.S.C. 2321, and the identification, assertion, and delivery processes of paragraph (g) of this clause are recognized and protected. Additionally, this clause shall be flowed down to all subcontractors, vendors, and suppliers at all levels. The contractor and their higher-tier subcontractors shall not use their power to award contracts as economic leverage to obtain rights in technical data and computer software from their lower-tiered subcontractors, vendors, and suppliers. In no event shall the contractor use its obligation to recognize and protect subcontractor, vendor, or supplier rights in technical data and computer software as an excuse for failing to satisfy its contractual obligations to the Government.

#### I. RIGHTS IN BID OR PROPOSAL INFORMATION

(a) Definitions. The terms "technical data" and "computer software" are defined in the Rights in Technical Data and Computer Software: Noncommercial Items clause of this contract.

(b) Government Rights to Contract Award. By submission of its offer, the offeror agrees that the Government:

- (1) May reproduce the bid or proposal, or any portions thereof, to the extent necessary to evaluate the offer.
- (2) Except as provided in paragraph (d) of this clause, shall use information contained in the bid or proposal only for evaluational purposes and shall not disclose, directly or indirectly, such information to any person, including potential evaluators, unless that person has been authorized by the Contracting Officer to receive such information.

(c) Government Rights Subsequent to Contract Award. The contractor agrees:

(1) Except as provided in paragraphs (c)(2), (d), and (e) of this clause, the Government shall have the rights to use, modify, reproduce, release, perform, display, or disclose information contained in the contractor's bid or proposal within the Government.

(2) The Government's right to use, modify, reproduce, release perform, display, or disclose information that is technical data or computer software required to be delivered under this contract are determined by the Rights in Technical Data and Computer Software: Noncommercial Items clause of this contract.

(d) Government-Furnished Information. The Government's rights with respect to technical data or computer software contained in the contractor's bid or proposal provided to the contractor by the Government are subject only to restrictions on use, modification, reproduction, release, performance, display, or disclosure, if any, imposed by the developer or licensor of such data or software.

(e) Information Available Without Restrictions. The Government's rights to use, modify, reproduce, release, perform, display, or disclose information contained in a bid or proposal, including technical data or computer software, and to permit others to do so, shall not be restricted in any manner if such information has been released or disclosed to the Government or to other persons without restrictions other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the information to another party, or the sale or transfer of some or all of a business entity or its assets to another party.

(f) Flowdown. The contractor shall include this clause in all subcontracts or similar contractual instruments, and require its subcontractors or suppliers to do so without alteration, except to identify the parties.

#### J. TECHNICAL DATA AND COMPUTER SOFTWARE: WITHHOLDING OF PAYMENT

(a) If technical data and computer software (as defined in paragraph titled *Rights in Technical Data and Computer Software: Noncommercial Items*) specified to be delivered under this contract is not delivered within the time specified by this contract or is deficient upon delivery (including having unauthorized

restrictive markings), the Contracting Officer may, until such data is accepted by the Government, withhold all subsequent payments to the contractor until a reserve is established totaling (VARIABLE) [Insert “X percent of the total contract price” where “X” is a whole number between 3 and 10; or, to establish the lowest allowable withhold amount, insert: “3 percent of the total contract price or \$5 million, whichever is less”]. Payments shall not be withheld nor any other action taken pursuant to this paragraph when the Contracting Officer determines that the contractor's failure to make timely delivery or to deliver the technical data or computer software without deficiencies arises out of causes beyond the control and without the fault or negligence of the contractor.

(b) The withholding of any amount or subsequent payment to the contractor shall not be construed as a waiver of any rights accruing to the Government under this contract. Use of this clause constitutes a determination by the Contracting Officer that the limitation established by FAR Clause 52.232-9, *Limitation of Withholding of Payments*, shall not apply to the amount withheld under this clause.

#### K. DATA REQUIREMENTS

The contractor is required to deliver the data items listed on the Contract Data Requirements List, data items identified in and deliverable under any contract clause of FAR Part 52 made a part of this contract, and other data as may be specified in the Statement of Work, Statement of Objectives, or Specification(s), as applicable.

#### L. VALIDATION OF RESTRICTIVE MARKINGS ON TECHNICAL DATA AND COMPUTER SOFTWARE

(a) Definitions. As used in this clause, the term “contractor” also refers to any and all subcontractors.

(b) The Government shall presume that a contractor's asserted use or release restrictions are justified on the basis that the item, component, or process was developed exclusively at private expense for commercial items as defined in FAR Part 12. The Government will not challenge such assertions unless information the Government provides demonstrates that the item, component, or process was not developed exclusively at private expense.

(c) Justification. The contractor or subcontractor at any tier is responsible for maintaining records sufficient to justify the validity of its markings that impose restrictions on the Government to use, duplicate, or disclose technical data and computer software delivered or required to be delivered under the contract. Except under contracts exclusively for commercial items, the contractor shall be prepared to furnish to the Contracting Officer a written justification for such restrictive markings in response to a challenge under paragraph (e) of this clause.

(d) Pre-challenge Request for Information.

(1) The Contracting Officer may request the contractor to furnish a written explanation for any restriction asserted on the right of the United States to use technical data or computer software. If, upon review of the explanation submitted, the Contracting Officer remains unable to ascertain the basis of the restrictive marking, the Contracting Officer may further request the contractor to furnish additional information in the records of, or otherwise in the possession of or reasonably available to, the contractor to justify the validity of any restrictive marking on technical data or computer software, accompanied with supporting documentation. The contractor shall submit such written data as requested by the Contracting Officer within the time required or such longer period as may be mutually agreed.

(2) If the Contracting Officer, after reviewing the written data furnished pursuant to paragraph (d)(1) of this clause, or any other available information pertaining to the validity of a restrictive marking, determines that reasonable grounds exist to question the current validity of the marking, and that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to which the technical data or computer software relates, the Contracting Officer shall follow the procedures in paragraph (e) of this clause.

(3) If the contractor fails to respond to the Contracting Officer's request for information under paragraph (d)(1) of this clause, and the Contracting Officer determines that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to

which the technical data or computer software relates, the Contracting Officer may challenge the validity of the marking as described in paragraph (e) of this clause.

(e) Challenge.

(1) Notwithstanding any provision of this contract concerning inspection and acceptance, if the Contracting Officer determines that a challenge to the restrictive marking is warranted, the Contracting Officer shall send a written challenge notice to the contractor asserting the restrictive markings. Such challenge shall:

(i) State the specific grounds for challenging the asserted restriction;

(ii) Require a response within sixty (60) days justifying and providing sufficient evidence as to the current validity of the asserted restriction;

(iii) State that a Government Contracting Officer's final decision, issued pursuant to paragraph (g) of this clause, sustaining the validity of a restrictive marking identical to the asserted restriction, within the three-year period preceding the challenge, shall serve as justification for the asserted restriction if the validated restriction was asserted by the same contractor (or any licensee of such contractor) to which such notice is being provided; and

(iv) State that failure to respond to the challenge notice may result in issuance of a final decision pursuant to paragraph (f) of this clause.

(2) The Contracting Officer shall extend the time for response if the contractor submits a written request showing the need for additional time to prepare a response.

(3) The contractor's written response shall be considered a claim within the meaning of the Contract Disputes Act of 1978, and shall be certified in the form prescribed at FAR Subpart 33.207, regardless of dollar amount.

(4) A contractor receiving challenges to the same restrictive markings from more than one Contracting Officer shall notify each Contracting Officer of the existence of more than one challenge. The notice shall also state which Contracting Officer initiated the first unanswered challenge. The Contracting Officer initiating the first unanswered challenge after consultation with the contractor and the other Contracting Officers, shall formulate and distribute a schedule for responding to each of the challenge notices to all interested parties. The schedule shall afford the contractor an opportunity to respond to each challenge notice. All parties will be bound by this schedule.

(f) Final Decision When Contractor Fails to Respond. When a contractor fails to respond to a challenge notice, the Contracting Officer will issue a final decision to the contractor in accordance with the Disputes clause of this contract pertaining to the validity of the asserted restriction. This final decision shall be issued as soon as possible after the expiration of the time period of paragraph (e)(1)(ii) or (e)(2) of this clause. Following issuance of the final decision, the Contracting Officer will comply with the procedures in paragraphs (g)(2)(ii) through (iv) of this clause.

(g) Final Decision When the Contractor Responds.

(i) If the Contracting Officer determines that the contractor has justified the validity of the restrictive marking, the Contracting Officer shall issue a final decision to the contractor sustaining the validity of the restrictive marking. This final decision shall be issued within sixty (60) days after receipt of the contractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the contractor that the Government will require.

(ii) The Government agrees that it will continue to be bound by the restrictive marking for ninety (90) days from the issuance of the Contracting Officer's final decision. The contractor agrees that if it intends to file suit in the United States Claims Court, it will provide a notice of intent to file suit to the Contracting Officer within ninety (90) days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. If the contractor fails to appeal, file suit, or provide a notice of intent to file suit to the Contracting Officer within the ninety-day period, the Government may cancel or ignore the restrictive markings, and the failure of the contractor to take the required action constitutes agreement with the Contracting Officer's final decision.

(iii) The Government agrees that it will continue to be bound by the restrictive marking where a notice of intent to file suit in the United States Claims Court is provided to the Contracting Officer within ninety (90) days from the issuance of the final decision under paragraph (g)(2)(i) of this clause. The Government will no longer be bound, and the contractor agrees that the Government may strike or ignore the restrictive markings, if the contractor fails to file its suit within one (1) year after issuance of the Contracting Officer final decision. Notwithstanding the foregoing, where the Director, Office of Contracts determines that urgent or compelling circumstances will not permit waiting for the filing of a suit in the United States Claims Court, the contractor agrees that the Government may, following notice to the contractor, authorize release or disclosure of the technical data or computer software. Such determination may be made at any time after issuance of the Contracting Officer final decision, and will not affect the contractor's right to damages against the United States where its restrictive markings are ultimately upheld, or to pursue other relief, if any, as may be provided by law.

(iv) The Government agrees that it will be bound by the restrictive marking where an appeal or suit is filed pursuant to the Contract Disputes Act until final disposition by an agency Board of Contract Appeals or the United States Claims Court. Notwithstanding the foregoing, where the Director, Office of Contracts determines following notice to the contractor that urgent or compelling circumstances will not permit awaiting the decision by such Board of Contract Appeals or the United States Claims Court, the contractor agrees that the Government may authorize release or disclosure of the technical data or computer software. Such determination may be made at any time after issuance of the final decision and will not affect the contractor's right to damages against the United States where its restrictive markings are ultimately upheld, or to pursue other relief, if any, as may be provided by law.

(h) Final Disposition of Appeal or Suit.

(1) If the contractor appeals or files suit, and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is sustained:

(i) The restrictive marking on the technical data or computer software shall be canceled, corrected, or ignored; and

(ii) If the restrictive marking is found not to be substantially justified, the contractor shall be liable to the Government for payment of the cost to the Government of reviewing the restrictive marking and the fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the marking, unless special circumstances would make such payment unjust.

(2) If the contractor appeals or files suit, and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is not sustained:

(i) The Government shall continue to be bound by the restrictive marking; and

(ii) The Government shall be liable to the contractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the contractor in defending the marking if the challenge by the Government is found not to have been made in good faith.

(i) Duration of Right to Challenge. The Government may review the validity of any restriction on technical data or computer software, delivered or to be delivered under a contract, asserted by the contractor. During the period within three (3) years of final payment on a contract or within three (3) years of delivery of the technical data or computer software to the Government, whichever is later, the Contracting Officer may review and make a written determination to challenge any restriction. The Government may, however, challenge a restriction on the release, disclosure, or use of technical data or computer software at any time if such technical data or computer software:

(1) Is publicly available;

(2) Has been furnished to the United States without restriction; or

(3) Has been otherwise made available without restriction. Only the Contracting Officer's final decision resolving a formal challenge by sustaining the validity of a restrictive marking constitutes "validation" as addressed in 10 U.S.C. 2321.

(j) Decision Not to Challenge. A decision by the Government, or a determination by the Contracting Officer, to not challenge the restrictive marking or asserted restriction shall not constitute "validation" as addressed in 10 U.S.C. 2321.

(k) Privity of Contract. The contractor or subcontractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors at any tier that assert restrictive markings. However, this clause neither creates nor implies privity of contract between the Government and subcontractors.

(l) Flowdown. The contractor or subcontractor agrees to insert this clause in contractual instruments with its subcontracts or suppliers at any tier requiring the delivery of technical data or computer software.
