IDENTIFICATION OF UNIQUE PART NUMBERS

The part number(s) listed on the contract contains a suffix consisting of two periods followed by two letters (i.e. “..XX”). This suffix is for Buyer internal use only and shall not be marked on the part. However, Seller is required and shall include the suffix with the part number on its packing sheets and other shipping documents provide to the Buyer.

Seller understands and agrees that inclusion of the suffix on the part(s) or omission of the suffix on the shipping documents will result in a rejection of the part(s) by the Buyer.
