18-52.246-73	Human Space Flight Item (Mar 97)
18-52.247-71	Protection of the Florida Manatee (MAR 89)

Other Contract Clauses

H-13 Asbestos Material

During performance of this contract, Contractor personnel performing work in MSFC buildings may come in contact with materials containing asbestos. MSFC Buildings 4200, 4201, 4202 and 4666 are of special concern since they are known to contain a sprayed on fire insulation on or above the ceiling, usually located on the metal or concrete structure of the buildings. These buildings and all other MSFC buildings may contain asbestos in floor tile, pipe and lagging insulation, exterior siding, roofing felt, and many other building materials. Prior to disturbing suspected asbestos material in any manner, Contractor shall notify representatives of the Environmental Health Office, an office within the MSFC Medical Center, for guidance. Contractor shall be responsible for ensuring that all Contractor personnel working onsite are made aware of and comply with this clause.

H-17 Hazardous Material Reporting

- (a) If during performance of this contract, Contractor brings any hazardous materials (hazardous defined under the latest version of Federal Standard No. 313, including revisions adopted during the term of this contract), on-site to the Marshall Space Flight Center, a completed MSFC Form 4099 (MSFC Hazardous Material Input Sheet) shall be immediately forwarded to the address on the form.. The Contractor shall be responsible for ensuring that all its personnel and all its subcontractor personnel are made aware of and comply with this clause.
- (b) Noting contained in this clause, shall relieve Contractor from complying with applicable Federal, State and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material; or with other clauses regarding hazardous materials which may be contained in the contract of which the contractor has or reasonably should have notice.

H-18 Hazardous Material Elimination

- (a) The Contractor shall perform environmental compliance activities in accordance with applicable Federal, State, and local environmental laws and regulations in

response to the February 1992 mandate by President Bush (Executive Order for the Elimination of Freon, Trichloroethane, and Halons) on the Reduction of ozone depleting materials.

(b) The purpose of the Hazardous Materials Elimination Program is to resolve the use of hazardous materials in the manufacture of the Space Shuttle Main Engine (SSME). This effort is characterized by the elimination or reduction of freon, trichloroethane, perchloroethylene, chromium, and volatile organic compounds. Replacement alternatives were researched, developed, and implemented through pilot demonstrations under contract NAS8-40000. These demonstrations provided the data to support document changes, which include revisions, updates, and new document creation.

(c) The Contractor shall continue to use replacement alternatives for freon,

trichloroethane, perchloroethylene, chromium, and volatile organic compounds as developed under contract NAS8-40000. Should additional effort be mandated to ensure compliance with applicable Federal, State or local environmental laws and regulations, the effort shall be evaluated on a case by case basis and the Contractor may be entitled to equitable adjustment.
