EXHIBIT A**PROVISIONS APPLICABLE TO
PRIME CONTRACT Sentry/1246**

The clauses contained in the following are taken from the prime contract and are incorporated by reference. Where necessary or appropriate to derive proper meaning in a subcontract situation, "Contractor" shall mean Seller. Government clauses cited elsewhere in the contract shall be those in effect in TBD.

PAYMENT

Pursuant to DEFCON 534 and subject to conditions provided elsewhere in this contract, Buyer shall tender payment to the Seller within 30 days from receipt of a valid invoice as defined by the requirements of this contract.

3.6 Drawings

The preparation of new drawings, or modification of existing drawings, required under this Contract shall be undertaken in accordance with US DoD•D•1000•B , or the UK equivalent DEF STAN 05•10 if the task is carried out by UK sub•contractors.

**INDEMNITY IN RESPECT OF INTELLECTUAL PROPERTY RIGHTS (IPR)
(Clause 5 of the prime contract)**

5.1 Subject to the exceptions, conditions and limitations set forth below, the Seller hereby agrees to indemnify and hold harmless the UK Ministry of Defence (herein referred to as the "Authority") and The Boeing Company (herein referred to as "Boeing") against any claims, suits, actions, liabilities, damages and costs (excluding any incidental or consequential damages) relating to actual or alleged use or infringement (whether by manufacture, use, sale or otherwise) of any patent, registered design, copyright, or other intellectual property arising in or out of the performance of the Purchase Contract or the supply or provision of service to the Authority or Boeing or the use by the Authority or Boeing of any article, drawing, document or other information or service provided under the Purchase Contract.

5.2 This indemnity shall not apply to equipment or services furnished by the US Government or by the Authority or Boeing. The Seller will use reasonable commercial endeavours to secure on the Seller's usual terms indemnities from such sub•contractors equivalent to those specified above and shall take all reasonable steps to enforce any such indemnity which is secured. Provided that if the Authority or Boeing is not legally able to enforce an indemnity condition contained in a sub•contract, for infringement or use of an invention or patent, copyright or similar right, directly against a sub•contractor or supplier of any system, accessory, equipment or part manufactured by a sub•contractor and not manufactured to Seller's detailed design, Seller shall indemnify the Authority and/or Boeing for such infringement, but only to the extent that Seller is indemnified by the sub•contractor or supplier for such infringement.

5.3 The Authority's and Boeing's remedy and Seller's obligation and liability under this Condition are conditioned upon the Authority and/or Boeing giving Seller reasonably prompt written notice after the Authority and/or Boeing receives notices of a suit or action against the Authority or Boeing alleging infringement or receives a written claim of infringement or a written claim for compensation for use. The Seller may at its option conduct negotiations with any party claiming infringement or compensation for use and may intervene in any such claim, suit or action. Whether or not the Seller intervenes, it shall be entitled at any stage of the proceedings to assume or control the defense. The Authority's and Boeing's remedy and Seller's obligation and liability hereunder are further conditioned upon the Authority and Boeing promptly furnishing to Seller all data, records and assistance within the Authority's and Boeing's control material to any such claim, suit or action, and (except as to amounts payable under a judgment) upon Seller's prior approval of the Authority's or Boeing's payment or assumption of any liabilities, damages, royalties or costs for which the Seller is asked to respond.

5.4 The indemnity, obligations and liabilities of Seller and remedies of the Authority and Boeing set forth in this Condition are exclusive and in substitution for, and the Authority and Boeing hereby waive, release and renounce all other indemnities, obligations and liabilities of Seller and any assignee of Seller, and all other rights, remedies and claims, including claims for damages, direct, incidental or consequential, of the Authority and Boeing against Seller or any assignee of Seller, express or implied, arising by law or otherwise, with respect to any actual or alleged infringement of intellectual property by any Sentry AEW Mk1 (E•3D) System or any system accessory or equipment or part installed therein.

The Seller shall, in addition, not be entitled to claim compensation payable directly or indirectly by the Authority in respect of a secrecy order imposed by a Patent Office or Government (upon such invention or design). The rights conferred by this Condition shall be in addition to and not in derogation of rights exercisable by virtue of Sections 55 to 59 of the Patents Act 1977 and Section 12 of the Registered Design Act 1949.

6.2.2 Pending formal determination of its security classification, the preparation and filing of any application for patent or similar protection shall be handled under conditions of security appropriate to related work under the Purchase Contract. Any application made in the United Kingdom for patent or similar protection shall be sent direct to the Security Section of the Patent Office, state that the application is related to work being carried out under a Ministry of Defence security classified contract and quote the number of the Purchase Contract.

Further the Authority or Boeing shall prohibit reproduction and disclosure of the Seller's commercially or industrially confidential data by bidders and contractors, and shall prohibit incorporation of such data into other documents except as necessary to submit a bid or perform under a contract, and the Authority and Boeing shall require all recipients of the Seller's commercially or industrially confidential data to perpetuate an appropriate restrictive legend identifying the Seller as the owner of that data on all other documentation submitted as part of a bid or delivered under a contract except that the obligations of this Condition shall not apply to the Authority or Boeing when any such data:

6.3.2.1 is already known to the Authority or Boeing otherwise than by communication either directly or indirectly from the Seller;

6.3.2.2 is publicly known through no wrongful act of the Authority or Boeing;

6.3.2.3 is rightfully received by the Authority or Boeing from a third party without any obligation of confidence;

6.5 The Seller shall not assign or license any intellectual property in such a way as to prejudice the intellectual property rights granted in this Purchase Contract without the prior approval of the Authority or Boeing.

6.6 Sub•contractor's Intellectual Property

6.6.1 In the event that work is to be undertaken for the purposes of this Purchase Contract by a sub•contractor, and the Authority or Boeing does not wish to enter into direct contractual relations with that sub•contractor, the Seller shall, unless the Authority and/or Boeing agrees otherwise, use reasonable endeavours to procure that in so far as legally possible the terms of the sub•contract provide for the Authority or Boeing the same rights as against the sub•contractor as are set•out in this Condition and impose on the sub•contractor the same obligations (the necessary changes being made) as are imposed on the Seller in this Condition.

14.2 The Government of the United Kingdom shall assign a security classification to each of the aspects of classified

information which is furnished, or which is to be developed, under this Purchase Contract and shall advise the Defense Investigative Service, Attn: Deputy Director (Industrial Security) of such aspects and their security classification. If classified information is disclosed orally pursuant to a visit to the Seller by or on behalf of the Government of the United Kingdom, the Seller shall be informed of such security classification. The Defense Investigative Service (DIS) shall ensure that appropriate classification guidance is obtained for each aspect of United Kingdom (UK) classified information which is furnished, or which is to be developed, under the Purchase Contract and that such information is assigned an equivalent United States (U.S.) security classification. The Government of the United Kingdom shall keep current all security classifications, and inform the Defense Investigative Service, Attn: Deputy Director (Industrial Security) of any changes thereto. Each classified aspect of this Purchase Contract shall be safeguarded by the Seller as U.S. classified information of an equivalent security classification category as set forth in the following table of equivalent security classification categories.

Classified information produced or reproduced in the U.S. in connection with UK classified Contracts shall be marked with the assigned classification markings of both countries as provided. The markings shall be applied in the manner prescribed in the regulations of the country in which the information is produced or reproduced.

*UK Restricted Information shall be safeguarded in accordance with Department of Defense National Industrial Security Program Operating Manual (NISPO), DOD 5220.22•M dated January 1995.

14.8 The U.S. Seller agrees to insert security provisions, which conform substantially to the language of this clause, including this paragraph in all sub•contracts awarded to the U.S. contractors hereunder which involve access to classified information. In the event the U.S. Seller proposes to award a sub•contract to other than a U.S. contractor, prior permission must be obtained from the Government of the United Kingdom and Boeing, which, if such contract is approved, will provide an appropriate security requirements clause. For this purpose, DEFCON 659 (Edn. 9/97) – Security Measures is included in this Purchase Contract for sub•contract work placed in the UK.

14.9 The U.S. Seller also agrees that he shall determine that any sub•contractor proposed by him for the furnishing of supplies and services which will involve access to UK classified information in the U.S. Seller's custody has:

14.9.1 If located in the U.S., a current U.S. Department of Defense facility security clearance at the appropriate level and the ability to safeguard classified information properly prior to being afforded access to such classified information.

U.S. GOVERNMENT R&D RECOUPMENT

(Clause 23 of the prime contract)

The Authority, Boeing and the Seller recognise that the items under this Purchase Contract may require use of technology developed (or being developed) by the Seller or its sub-contractors under contract with the United States Government. Pursuant to the provisions of those contracts the Seller or its sub-contractors may be obliged to assess the Authority and for recoupment of an equitable portion of the development costs applicable to any non-U.S. Government sales and that the price of this Purchase Contract does not cover any amount to cover such assessment. In the event that the U.S. Government does assess the Seller for any amount applicable to the items of this Contract, the Contract price will be adjusted by the amount of such assessment (including any Tax payable on account of such increase in the Contract Price) associated with this assessment.

If in taking those steps the Seller deems it appropriate to institute legal proceedings or refer the matter to arbitration, the Authority shall reimburse to the Seller 50% of all costs and expenses reasonably incurred in such proceedings or arbitration and not recovered from the Sub•contractor or any Third Party.
