

Section 1 : SOLICITATION CLAUSES

128. Special Tooling, Special Test Equipment -- Follow-on Production (10/1/96). Government-owned or Buyer-owned special tooling and/or special test equipment required for performance of the contemplated contract is now in Bidder's possession. If such tooling or test equipment will require modification, or if additional tooling or test equipment is required, for production of the goods specified herein to a configuration different from that for which tooling or test equipment was originally designed, Bidder will separately itemize and price such modifications or additions. If, as a result of this solicitation Bidder is awarded a contract, it is agreed that title to any such additional tooling, test equipment, or modifications thereto will vest in the Government or Buyer as the case maybe.
