

## **Section 6 : QUALITY ASSURANCE CLAUSES / CQAR**

---

641. Antistatic/Static-Dissipative Packaging - Non-ESD Sensitive Goods (10/1/96). Goods ordered by this contract are not considered Electrostatic Discharge (ESD) sensitive. They will, however, be associated with ESD sensitive goods in the stocking and manufacturing processes where static-generating packaging materials are forbidden. Seller will make every effort to ship goods in noncorrosive, conductive foam or other suitable method of packaging. Seller will make every effort to package goods in conductive or static-dissipative packages, tubes, carriers, conductive bags, etc., for shipment.
