

## **Section 6 : QUALITY ASSURANCE CLAUSES / CQAR**

---

678. Manufacturing and Inspection Control Plan (10/1/96). Seller will submit a manufacturing and inspection control plan for Buyer's approval. As a minimum, the plan will delineate the sequence of manufacturing operations to be performed, the points within the manufacturing sequence where inspection is to be performed, the type of each inspection specified, and, if applicable, the specifications that define each inspection requirement. This plan will be submitted to Buyer's authorized purchasing representative and approved by Buyer's Quality Assurance prior to production of the goods. Buyer's approval of this plan does not relieve Seller of the responsibility to perform all inspections required by the applicable specifications. After approval by Buyer's Quality Assurance, Seller will comply with the plan. Any changes to the approved plan will be submitted to Buyer for approval.
