

Advanced Product Quality Planning (APQP) & Production Part Approval Process (PPAP)

REQUIREMENTS - The below terms and conditions supplement the quality assurance provisions set forth in the applicable *Contract or Agreement* between the Parties, for example, the **BCA Supply Chain Agreement (BCSA)**.

Advanced Product Quality Planning (APQP) and Production Part Approval Process (PPAP):

Seller shall ensure compliance with AS/EN/SJAC 9145 "Requirements for Advance Product Quality Planning and Production Approval Process" as may be revised from time to time, which is incorporated herein and made a part hereof by this reference.

Specific APQP/PPAP data submittal requirements will be specified in a Quality Administrative Agreement and/or Quality note(s) between Boeing and Seller.

APQP/PPAP data submittal items specified by Boeing shall be made available by the Seller in the English language.

Seller shall flow-down to its Supply Chain the applicable provisions/requirements of AS/EN/JISQ 9145 that are needed to assure overall compliance to Boeing requirements and expectations.

Note: *"Supply Chain" means Seller's complete network of material, equipment, information, and services integrated into deliverable products and services provided to Seller by Seller's direct first tier supply contracts and Seller's sub-tier or lower tier supply contracts.*

Boeing reserves the right to make final determination of Seller's compliance to the AS/EN/SJAC 9145 aerospace standard.

Note: *Seller may view the most current version of this document or additional Boeing Quality requirements information by selecting "Supplier Quality" from the menu bar of "Doing Business with Boeing" home page located at the following URL address: <http://www.boeingsuppliers.com>.*
