

Q071 First Article Inspection (with Boeing Source) - rev 5/13/02

Seller shall perform a First Article Inspection (FAI) in coordination with Boeing Source Inspection per requirements of specification SAE AS9102 at first production run, and shall perform a comparable inspection at production change points or for specified articles following inspection tooling changes, design changes, or evident Quality degradation. This includes all details and sub-assemblies, which constitute the end item ordered.

When documenting the FAI, the Seller may use the forms contained within SAE AS9102 specification or their equivalent, so long as the equivalent forms contain all the information required by SAE AS9102.

Seller will include results of FAI with shipment of deliverable product to Buyer.
