FLIGHT SAFETY / CRITICAL ITEM CONTROL – AH-64 PROGRAM – DELIVERABLE

Goods ordered herein are designated on engineering drawings as a "Flight Safety Part" and or "Contains Flight Safety Parts Program (FSPP) Critical Characteristic" and accordingly requires control during manufacturing per EPB 17-119, FSPP Requirements. Seller will contact Buyer's Authorized Procurement Representative to confirm possession and then assure use of the latest EPB 17-119. Seller shall provide and maintain a system of traceability from raw material to the contract end item.

As required by EPB 17-119 and engineering drawing, Seller shall submit one copy (electronic version) of the FSPP production planning package for Buyer's review and approval.

Record Retention:

Documents supporting the manufacture of "Flight Safety Part" and or "Contains Flight Safety Parts Program (FSPP) Critical Characteristic" shall be maintained by the manufacturer for a period of five (5) years after Seller ceases processes for which EPB 17-119 applies. In the event of Seller facility relocation or closure, Buyer's Authorized Procurement Representative shall be notified and all records shall be provided to Buyer upon request.

Shipment Documentation:

1. A completed FSPP Production Planning Package Compliance Certification (EPB 17-119, Attachment C) shall be included with product shipment.
2. A completed inspection record with actual results for each FSPP critical characteristic shall be included with product shipment.
