Section Q

Clause Number: Q171P
Effective: 4/18/2005
Page: 1 of 1

GRAIN FLOW MARKING

This clause applies to plate only (not sheet).

Identification / marking:

Each plate shall be marked on one face, at "Location" as described below, with arrows or lines indicating the grain flow direction. The arrows or lines shall be sufficiently stable to withstand normal handling.

Location:

- If plate is six inches or under in width, arrows or lines indicating the grain flow direction shall be marked on one row across the entire length.
- If plate is over six inches wide arrows or lines indicating the grain flow direction shall be marked in rows across the entire length; the rows are to be spaced approximately six inches on centers.
