NONCONFORMING MATERIAL CONTROL AND DISPOSITION

Seller shall maintain a system that clearly identifies, documents, controls, and segregates nonconforming material. Shipment of goods containing nonconformities is not allowed until all Material Review Board (MRB) actions have been properly completed.

Seller shall maintain, on a trend basis, a system of nonconformity level reporting for the purpose of demonstrating continuous improvements to the product quality.

Seller shall take prompt and effective action to correct and prevent recurrence of all nonconformities, inclusive of those that occur at Seller's subcontractors.

Seller of goods designed by Buyer must submit nonconformities that require "Use-As-Is" or "Repair" disposition to Buyer for Material Review Board (MRB) disposition utilizing Buyer's Supplier Quality supplier data system.

If Seller is furnishing Buyer - designed goods (build-to-print), Seller may only perform "Rework" and "Scrap" MRB dispositions.

If Seller is furnishing goods (except critical/process sensitive/flight safety parts, components, or assemblies) designed to Buyer's Specification or Buyer's Source Control Drawing (SCD), Seller may perform MRB actions, including dispositions of "Use-As-Is," "Rework," "Repair," and "Scrap" on characteristics contained in Seller's design products or processes, as long as the nonconformity does not adversely affect the fit, form, function, reliability, or safety and does not result in a departure from Buyer's specified requirements (e.g., PC, SOW, CIDS, PIDS, SCD, Envelope Drawing, etc.).

Seller shall not perform MRB on critical/process sensitive/flight parts, components, or assemblies. This includes items or attributes designated on the engineering design as "critical," "process sensitive," and "flight safety," or if any of the following documents are invoked on the design documents: 145-PJ-002, D210-11000-1, D210-10302, D210-10558-1, D8-0965 or D8-1059 Any nonconforming condition on a critical, process sensitive, or flight safety part, component, or assembly must be submitted for MRB disposition.

Regardless of design control (Buyer or Seller) all departures from Buyer's specified requirements, or any nonconformity that may adversely affect the fit, form, function, reliability, or safety for the deliverable item must be submitted to Buyer for MRB disposition utilizing Buyer's Supplier Quality supplier data system.

If Seller is delivering products in accordance with Buyer's design, Seller shall not delegate Buyer's MRB to Seller's subcontractors.

Seller performing MRB on Buyer's government contracts (e.g., V-22, CH-47, etc.) shall promptly notify the government representative who normally services Seller's facility to provide the opportunity to be included in Seller's MRB process. If a government representative does not

normally service Seller's facility, Seller shall furnish a copy of this contract to the nearest Defense Contract Management Agency (DCMA) office. In the event the government representative or DCMA office cannot be located, Seller shall immediately notify Buyer's Authorized Procurement Representative. DCMA has the right of approval / disapproval on all MRB dispositions on all Buyer procurements.

When a nonconforming item is reworked or repaired, it shall be subject to re-verification/re-inspection by Seller to demonstrate conformance to the requirements and to ensure no other nonconformity was incurred during the rework or repair process.

Items with disposition of "Scrap" shall be conspicuously and permanently marked (painted red) until physically rendered unusable. Scrap items shall not be shipped from Seller.

Seller's nonconforming material reports shall be maintained by Seller and made available for review by Buyer and Buyer's Customers.

Buyer and Buyer's Customers reserve the right to dispute Seller's MRB actions and/or audit Seller's MRB procedures, processes and documentation at any time during the performance of this contract.

When a nonconformance is discovered that may affect already delivered goods, Seller shall notify Buyer promptly by a Seller-generated Notification of Escapement (NoE) letter sent to Buyer's Authorized Procurement Representative with a copy to the assigned Buyer's Supplier Quality Source Representative.
