

**Q304            Production Drawing Information - rev 4/26/01**

The design baseline listed below (drawing/part list revision levels and SPEC "O" change levels) is applicable to the manufacturing and inspection of the hardware and/or software ordered on this purchase contract. This includes Boeing part numbered subassemblies drawing/parts list when applicable. Vendor will coordinate with buyer to verify configuration of the unit prior to its shipment and/or request for final source inspection.

In addition, when shipping, the sellers pack sheets and/or data packages shall identify applicable drawing (s), including each applicable parts list (s)/sheet number (s) including DCN levels, ADCNS/ADRNS, SPEC "O" change levels, and the serial number (s) of items being shipped.
