

**Q893**      Cleanliness and Packaging Requirements - rev 3/6/01

The Contractor shall clean contracted/procured items in accordance with the contract-specified requirements of Specification KSC-C-123, or JSC-SN-C-0005, to the Visual Cleanliness Level of "Visibly Clean (VC)-Highly Sensitive". Prior to shipment to The Boeing Company, the item(s) shall be double-bagged in nylon or polyethylene bags. The interiors of both bags shall meet the visual cleanliness level specified for the procured/contracted items. Both bags shall be closed by heat-sealing. The exterior of the outer bag shall include a tag containing the following statement: "Contents of this bag meet the cleanliness requirements of JSC-SN-C-0005; Visibly Clean-Highly Sensitive".
