Q894 National Association of Corrosion Engineers (NACE) International Certified Coating Inspector Certification - rev 3/6/01

A letter of certification is required from the contractor which states that the Purchase-Order-Specified Boeing Company coating specification and/or Standard Repair Procedure were/was complied with. The letter must also bear a NACE International Certified Coating Inspector raised seal. A copy of all daily coating activity records associated with the performance of the contract shall accompany the NACE certification letter to The Boeing Company.
