A. Enabling Clause Between Prime Contractors and Support Contractors

(a) The Air Force has entered into contracts with support contractors (actual contractors may vary) for technical support, technical review, and acquisition management support. Prior to the Seller's disclosure of proprietary information to the Air Force, Seller shall enter into a non-disclosure agreement(s) with each support contractor wherein the support contractor, through its employees, agrees to protect Seller's proprietary information with no less than a reasonable standard of care, and to provide Seller with third-

party beneficiary rights to enforce such non-disclosure agreement(s).

(b) In the performance of this contract, Seller agrees to cooperate with technical support, technical review, and acquisition management support provided by the support contractors by doing the following: responding to invitations from authorized personnel to attend meetings; by providing access to technical information and research, development planning data such as, but not limited to, design and development analyses, test data and results, equipment and process specifications, test and test equipment specifications and procedures, parts and quality control procedures, records and data, manufacturing and assembly procedures, and cost, schedule, and milestone data (all in their original form or reproduced form); by delivering data as specified in the Contract Data Requirements List; by discussing technical matters relating to this program; by providing access to Seller facilities utilized in the performance of this contract; and by allowing observation of technical activities by appropriate technical personnel. The personnel engaged in general systems engineering and integration effort are authorized access to any technical information pertaining to this contract.

(c) Seller agrees that the Government shall have the right to unilaterally change support contractors subject to the completion of a proper nondisclosure agreement and its exercise of that right shall not entitle Seller or its subcontractors to an equitable adjustment or a modification of any other provision of this contract.

B. Enabling Clause for Government Program Contracts Requiring Interface with Aerospace FFRDC Contract Support

a) The GBSD SPO is responsible for management of this contract. The Air Force has entered into a contract with The Aerospace Corporation, a California nonprofit corporation operating a Federally Funded Research and Development Center (FFRDC). The Aerospace Corporation provides support to the Air Force Program Executive Officer/Strategic Systems (AFPEO/SS) by performing General Systems Engineering and Integration, Technical Review, and/or Technical Support. This includes informing the commander or director of the various Department of Defense (DoD) organizations it supports and any U.S. Government program office of product or process defects and other relevant information. If this information is not disclosed to the U.S. Government, it could have adverse effects on the reliability and mission success of the program(s) that the information relates to.

1) General Systems Engineering and Integration (GSE&I) deals with overall system definition; integration both within the system and with associated systems; analysis of system segment and subsystem design; design compromises and tradeoffs; definition of interfaces; review of hardware and software, including manufacturing and quality control; observation, review, and evaluation of tests and test data; support of launch, flight test, and orbital operations; appraisal of the contractor's technical performance through meetings with contractors and subcontractors and exchanges and analysis of information on progress and problems; review of plans for future work; developing solutions to problems; technical alternatives for reduced program risk; providing comments and recommendations in writing to the applicable DoD System Program Manager and/or Project Officer as an independent technical assessment for consideration for modifying the program or redirecting the contractor's efforts. This should all be performed to the extent necessary to assure timely and economical accomplishment of program objectives consistent with mission requirements.

2) Technical Review (TR) includes the process of appraising the technical performance of the contractor through meetings, exchanges of information on progress and problems, reviewing reports, evaluating presentations, reviewing hardware and software, witnessing and evaluating tests, analyzing plans for future work, evaluating efforts relative to contract technical objectives, and providing comments and recommendations in writing to the applicable Air Force Program Manager as an independent technical assessment for consideration for modifying the program or redirecting the contractor's efforts to assure timely and economical accomplishment of program objectives.

3) Technical Support (TS) deals with broad areas of specialized needs of customers for planning, system architecting, research and development, horizontal engineering, or analytical activities for which The Aerospace Corporation is uniquely qualified by virtue of its specially qualified personnel, facilities, or corporate memory. The categories of TS tasks are: Selected Research, Development, Test and Evaluation;

Plans and System Architecture; Multi-Program Systems Enhancement; International Technology Assessment; and Acquisition Support.

b) In the performance of this contract, Seller agrees to cooperate with The Aerospace Corporation by:

- 1) Responding to invitations from authorized U. S. Government personnel to attend meetings.
- 2) By providing access to technical information and research and development planning data such as, but not limited to, design and development analyses, test data and results, equipment and process specifications, test and test equipment specifications and procedures, parts and quality control procedures, records and data, manufacturing and assembly procedures, and schedule and milestone data. This data should all be provided in its original form or reproduced form to include top-level life cycle cost* data, where available.
- 3) By delivering data as specified in the Contract Data Requirements List.
- 4) By discussing technical matters relating to this program.
- 5) By providing access to Seller facilities utilized in the performance of this contract, and
- 6) By allowing observation of technical activities by appropriate technical personnel of The Aerospace Corporation. The Aerospace Corporation personnel engaged in GSE&I, TR, and/or TS efforts:
 - (i) Are authorized access to all such technical information (including proprietary information) pertaining to this contract and may discuss and disclose it to the applicable DoD personnel in a program office.
 - (ii) Are authorized to discuss and disclose such technical information (including proprietary information) to the commander or director of the various DoD organizations it supports and any U.S. Government personnel in a program office which, if not disclosed to the U.S. Government, could have adverse effects on the reliability and mission success of the program(s) that the information relates to.
 - (iii) Shall make the technical information (including proprietary information) available only to its Trustees, officers, employees, contract labor, consultants, and attorneys who have a need to know.

c) Seller further agrees to include in all subcontracts a clause requiring compliance by subcontractor and supplier and succeeding levels of subcontractors and suppliers with the response and access and disclosure provisions of this Enabling Clause, subject to coordination with Seller, except for subcontracts for commercial items or commercial services. This agreement does not relieve Seller of its responsibility to manage the subcontracts effectively and efficiently nor is it intended to establish privity of contract between the Government or The Aerospace Corporation and such subcontractors or suppliers, except as indicated in paragraph (d) below.

d) The Aerospace Corporation shall protect the proprietary information of Seller, contractors, subcontractors, and suppliers in accordance with the Nondisclosure Agreement that The Aerospace Corporation entered into with the Air Force, a copy of which is available upon request. This Nondisclosure Agreement satisfies the Nondisclosure Agreement requirements set forth in 10 U.S.C. §2320 (f)(2)(B), and provides that such Seller, contractors, subcontractors, and suppliers are intended third-party beneficiaries under the Nondisclosure Agreement and shall have the full rights to enforce the terms and conditions of the Nondisclosure Agreement directly against The Aerospace Corporation, as if they had been signatory party hereto. Seller, each contractor, subcontractor, or supplier hereby waives any requirement for The Aerospace Corporation to enter into any separate company-to-company confidentiality or other nondisclosure agreements.

e) The Aerospace Corporation personnel are not authorized to direct Seller in any manner. Seller agrees to accept technical direction as follows:

1. Technical direction under this contract will be given to Seller solely by Buyer.
2. Whenever it becomes necessary to modify the contract and redirect the effort, a purchase contract change will be issued by Buyer.

* Cost data is defined as information associated with the programmatic elements of life cycle (concept, development, production, operations, and retirement) of the system/program. As defined, cost data differs from “financial” data, which is defined as information associated with the internal workings of a company or contractor that is not specific to a project or program.

C. Labor Rate Adjustment Clause

- Buyer (including any strategic business unit and interdivisional organization of the prime contractor performing work on this contract in any amount and/or Seller or any subcontractor performing work on this contract equal to or exceeding the Certified Cost and Pricing Threshold) shall submit actual and projected labor rate cost data in accordance with this clause to the Contracting Officer no later than 90 days prior to the end of the initial five (5) year Base Period and the first five (5) year Option Period (OP) 1. Prior to exercising OP 1 and 2 of this contract, the Government will review Buyer data submissions and compare them with the Labor Rate Matrix in the prime contract at that time. The Government will compare the Seller/subcontractor, Buyer strategic business unit and/or interdivisional organization data submissions with the rates that Seller/subcontractor, Buyer strategic business unit and/or interdivisional organization provided to the Government at time of award of the prime contract.
- If Buyer’s projected cost data is outside five percent (5%) of the Labor Rate Matrix for a given labor category, the Government may, by contract modification, make an adjustment (up or down) to the labor rate in the Labor Rate Matrix in the prime, for the future OP(s). Prior to exercising OP 1 and 2, the Government may also adjust the price (up or down) for the sustainment and CLS task orders listed above for the given OP if the cost data for Buyer, Seller, subcontractors and/or strategic business units and/or interdivisional organizations of Buyer is outside five percent (5%) for a given labor category.
- The task orders listed above are pre-priced for 18 years at contract award. If labor rates are adjusted, the task order price(s) in the Pricing Matrix, of the prime may, at the Government’s discretion, additionally be adjusted to reflect any labor rate adjustment. Prior to exercising OP 2, the Government may make adjustment(s) to the Labor Rate Matrix and/or the Pricing Matrix for OP 2, 3, 4, and 5 in accordance with the data provided by Buyer, Seller, subcontractor(s) and/or strategic business units and/or interdivisional organizations of Buyer at that time.

This Seller information will be used by the Government for evaluation purposes of the awardable task orders, but will not be incorporated into the contract for application on future add on task orders. Only Buyer’s Labor Rate Matrix, in the prime, will be incorporated into the contract for application on future add on task orders.
- Seller, to include Buyer organizations, cost and pricing data, will be provided with all proposals for future add on task orders on which each Seller or subcontract participates, to be negotiated at that time. Any Seller proprietary information may be submitted as an unsanitized proposal directly to the PCO.
