a) The ICBM SPO is responsible for management of this contract. The Air Force has entered into a contract with The Aerospace Corporation, a California nonprofit corporation operating a Federally Funded Research and Development Center (FFRDC). The Aerospace Corporation provides support to the Air Force Program Executive Officer/Strategic Systems (AFPEO/SS) by performing General Systems Engineering and Integration, Technical Review, and/or Technical Support. This includes informing the commander or director of the various Department of Defense (DoD) organizations it supports and any U.S. Government program office of product or process defects and other relevant information. If this information is not disclosed to the U.S. Government, it could have adverse effects on the reliability and mission success of the program(s) that the information relates to.

1) General Systems Engineering and Integration (GSE&I) deals with overall system definition; integration both within the system and with associated systems; analysis of system segment and subsystem design; design compromises and tradeoffs; definition of interfaces; review of hardware and software, including manufacturing and quality control; observation, review, and

evaluation of tests and test data; support of launch, flight test, and orbital operations; appraisal of the contractor's technical performance through meetings with contractors and subcontractors and exchanges and analysis of information on progress and problems; review of plans for future work; developing solutions to problems; technical alternatives for reduced program risk; providing comments and recommendations in writing to the applicable DoD System Program Manager and/or Project Officer as an independent technical assessment for consideration for modifying the program or redirecting the contractor's efforts. This should all be performed to the extent necessary to assure timely and economical accomplishment of program objectives consistent with mission requirements.

2) Technical Review (TR) includes the process of appraising the technical performance of the contractor through meetings, exchanges of information on progress and problems, reviewing reports, evaluating presentations, reviewing hardware and software, witnessing and evaluating tests, analyzing plans for future work, evaluating efforts relative to contract technical objectives, and providing comments and recommendations in writing to the applicable Air Force Program Manager as an independent technical assessment for consideration for modifying the program or redirecting the contractor's efforts to assure timely and economical accomplishment of program objectives.

3) Technical Support (TS) deals with broad areas of specialized needs of customers for planning, system architecting, research and development, horizontal engineering, or analytical activities for which The Aerospace Corporation is uniquely qualified by virtue of its specially qualified personnel, facilities, or corporate memory. The categories of TS tasks are: Selected Research, Development, Test and Evaluation; Plans and System Architecture; Multi-Program Systems Enhancement; International Technology Assessment; and Acquisition Support.

b) In the performance of this contract, the Seller agrees to cooperate with The Aerospace Corporation by:

1) Responding to invitations from authorized U. S. Government personnel to attend meetings.

2) By providing access to technical information and research and development planning data such as, but not limited to, design and development analyses, test data and results, equipment and process specifications, test and test equipment specifications and procedures, parts and quality control procedures, records and data, manufacturing and assembly procedures, and schedule and milestone data. This data should all be provided in its original form or reproduced form to include top-level life cycle cost\* data, where available.

3) By delivering data as specified in the Contract Data Requirements List.

4) By discussing technical matters relating to this program.

5) By providing access to Seller facilities utilized in the performance of this contract, and

6) By allowing observation of technical activities by appropriate technical personnel of The Aerospace Corporation. The Aerospace Corporation personnel engaged in GSE&I, TR, and/or TS efforts:

(i) Are authorized access to all such technical information (including proprietary information) pertaining to this contract and may discuss and disclose it to the applicable DoD personnel in a program office.

(ii) Are authorized to discuss and disclose such technical information (including proprietary information) to the commander or director of the various DoD organizations it supports and any U.S. Government personnel in a program office which, if not disclosed to the U.S. Government, could have adverse effects on the reliability and mission success of the program(s) that the information relates to.

(iii) Shall make the technical information (including proprietary information) available only to its Trustees, officers, employees, contract labor, consultants, and attorneys who have a need to know.

c) The Seller further agrees to include in all subcontracts a clause requiring compliance by subcontractor and supplier and succeeding levels of subcontractors and suppliers with the response and access and disclosure provisions of this Enabling Clause, subject to coordination with the Buyer, except for subcontracts for commercial items or commercial services. This agreement does not relieve the Seller of its responsibility to manage the subcontracts effectively and efficiently nor is it intended to establish privity of contract between the Government or The Aerospace Corporation and such subcontractors or suppliers, except as indicated in paragraph (d) below.

d) The Aerospace Corporation shall protect the proprietary information of contractors, subcontractors,

and suppliers in accordance with the Nondisclosure Agreement that The Aerospace Corporation entered into with the Air Force, a copy of which is available upon request. This Nondisclosure Agreement satisfies the Nondisclosure Agreement requirements set forth in 10 U.S.C. §2320 (f)(2)(B), and provides that such contractors, subcontractors, and suppliers are intended third-party beneficiaries under the Nondisclosure Agreement and shall have the full rights to enforce the terms and conditions of the Nondisclosure Agreement directly against The Aerospace Corporation, as if they had been signatory party hereto. Each contractor, Seller, subcontractor, or supplier hereby waives any requirement for The Aerospace Corporation to enter into any separate company-to-company confidentiality or other nondisclosure agreements.

e) The Aerospace Corporation personnel are not authorized to direct the Seller in any manner.

\* Cost data is defined as information associated with the programmatic elements of life cycle (concept, development, production, operations, and retirement) of the system/program.
