FA8621-23-D-B027 Special Provisions .
TSA IV-H011 ORGANIZATIONAL CONFLICT OF INTEREST (OCI) (JAN 2021, AFLCMC/WNS)

In order to prevent: (1) conflicting roles which might bias the Seller's judgment or objectivity in meeting its duties to the Buyer or Government under this and any other contract(s) with the Buyer or Government; and (2) an unfair competitive advantage to the Seller under this or any other contract(s) with the Government, it is agreed by the parties to this contract that the Seller shall be restricted in its future contracting with the Buyer and Government to the extent described below:

(a) The parties recognize that the Seller will play a very visible and responsible role in the fulfillment of a broad and comprehensive spectrum of TSA IV requirements. This role creates access to information that is not available to the public, which might give the Seller an unfair competitive advantage. The technical judgment of the Seller will influence research, development, and test products, and the Seller may play a key technical review role over other contractors' work. Both the Government, Buyer, and other contractors must have the utmost confidence that acquisitions are fair and that the Seller's judgment and recommendations are objective, impartial, and independent. To avoid, neutralize, or mitigate the potential conflict of interest, the Seller shall not, during performance of the contract, engage (as a prime contractor, subcontractor, supplier, or consultant) in any task order that would design, develop, operate, or sustain any system or deliverable that is based on a recommended solution provided by the same Seller under an Advisory and Assistance (A&AS) contract without an approved OCI Mitigation Plan.

(b) If the Seller in the performance of this contract, assists in the preparation of a requirement, or provides information leading directly, predictably and without delay to the preparation of a requirement, it is agreed by the parties that the Seller, the Seller's parent companies, subsidiaries, and any organization with which the Seller is affiliated through an ownership or direct financial interest shall be ineligible to participate in any competition to obtain award of a contract to perform for the Buyer or Government the work described within said requirements documents.

(c) To the extent that the performance of work under this contract requires or involves access to competition sensitive information, as well as possible access to proprietary technical data of other companies disclosed to the Seller in confidence, the Seller is required to protect such data from unauthorized use or disclosure so long as it remains proprietary. This provision is not intended to protect alleged proprietary data furnished voluntarily by companies without limitations as to use, or which is available to the Government or Seller without restriction from other sources. The Seller shall not use nor permit others to use the data in supplying the system, or components thereof, procured, either by formal advertising or negotiation, or in performing for the Department of Defense additional studies in the same field which are obtained competitively. The Seller shall immediately disclose to the contracting officer via the Buyer knowledge of any such prohibited use or attempted use.

(d) The Seller agrees to accept, and pursue to completion, all tasks identified hereunder in this contract and to ensure that its parents, subsidiaries, and affiliates do not thereafter enter into contractual agreements as prime contractors or first tier subcontractors which would create a conflict within the meaning of this clause, except as follows:

If performance of a task could cause a conflict of interest within the meaning of this clause with a contract or subcontract held by the Seller, its parent, subsidiaries, or affiliates, which pre-existed the identification of the task to the Seller, the Seller must disclose the conflict of interest to the Contracting Officer via the Buyer. If the Contracting Officer via the Buyer confirms that the conflict exists, the parties will consider the alternatives available to eliminate the conflict and mutually resolve it considering the relative burdens created by the prospective solutions.

(e) The Seller agrees that any organization participating in the performance of this contract shall be bound as though the "contractor" hereunder. Organizations merely cooperating with the Seller (e.g., providing information) to enable the Seller or its agents to perform shall not be deemed to be "participating" hereunder. This provision shall be incorporated in a manner to ensure that such organizations, and their parents, subsidiaries, and affiliates, shall be so bound in all subcontracts, teaming arrangements, and other agreements calling for the performance of any requirements under this contract.

(f) The Seller agrees to obtain from each employee engaged in any effort connected with this contract an agreement, which shall in substance provide that such an employee will not disclose to others or use for his own benefit proprietary, company private, or source selection sensitive information received in connection with the work under this contract. In addition, the Seller agrees to prevent disclosure of such information to other employees of the company who have no need for the use of the information in the performance of this contract. Additionally, each employee must agree not to accept any gratuity from any potential Government contractors.

(g) The Seller must thoroughly instill in its employees, through formal training in company policies and procedures, an awareness of the philosophy of FAR Subpart 9.5 to the end that they will be disciplined in the absolute necessity of refraining from divulging to any unauthorized person proprietary data, trade secrets, confidential information, or restricted data from other companies received in connection with work under this contract.

(h) The Seller shall require its employees to sign written agreements prohibiting proprietary information disclosure. This written agreement shall in substance provide that such employee will not, during their employment by the Seller or thereafter, disclose to others or use for their own behalf, trade secrets, confidential information, or restricted data received in connection with the work under this contract. The agreement will acknowledge the employee is trained regarding handling proprietary information and discuss penalties for violations.

(i) If the Seller discovers an actual or potential OCI not previously considered and adequately mitigated under this clause and the Buyer and Government approved OCI Mitigation Plan, the Seller shall make a prompt and full disclosure in writing to the Contracting Officer via the Buyer. This report shall include a description of the circumstances and the actions the Seller has taken or proposes to take to mitigate and avoid repetition of the violation. The Seller shall routinely monitor its proposed business development and shall discuss any real or perceived OCI issues with the Buyer and affected customers as required to proactively resolve and/or mitigate those potential OCI issues. After conducting such further inquiries and discussions as may be necessary, the Buyer and the contractor shall agree on appropriate corrective action, if any, or the Buyer shall direct such action, subject to the terms of this contract.

(j) OCI violations are a significant contract performance issue. Violations of the OCI Mitigation Plan or this clause may have consequences ranging from award fee decrements, contract termination, suspension and debarment, or other appropriate remedies or administrative actions.

(k) The Seller shall include this clause in every subcontract, task order, or other agreements issued as a result of performing under a task order issued under this contract.
