**SELLER RESPONSIBILITIES - SPECIFICATIONS**

Seller acknowledges that it is and that Buyer relies upon Seller as an expert, fully competent in all phases involved in designing, producing, testing, developing, tooling, manufacturing, modifying, altering, reconditioning, and stocking the goods, and in training or providing any services under this contract. Seller will not deny any responsibility or obligation to Buyer on the grounds that any such phase was approved or reviewed by Buyer or on the grounds that Buyer provided drawings to Seller.

This contract's specifications are performance specifications for the goods and services under this contract. If goods delivered or services performed do not meet or exceed the performance specifications, Seller will re-design the goods or re-perform the services and make changes to all affected technical data and computer software required by this contract, all at no increase in contract price. Re-designed goods, re-performed services, and corrected technical data and computer software are subject to this article. Buyer's review or approval of Seller's drawings or design, at any stage of development or production, does not relieve Seller of its obligations of this article.
