

**Repair Documentation – Repair Action Document**

The following documents are required to be submitted to Buyer's Authorized Procurement Representative immediately upon shipment:

1. Certificate of Conformance or Certificate of Calibration
2. Material Condition tag attached to the **unit** and on the outside of the shipping container (e.g. Serviceable tag DD1574-1, FAA8130-3, applicable EASA form; **OR**, Unserviceable tag DD1577-1).
  - a. Each Condition tag shall include Seller's inspector stamp and, as applicable, the US Government prime or customer contract number referenced in the Contract.
  - b. If several items or unit packs are placed in a single shipping container, each item or unit pack must be labeled or tagged.
3. As required, copy of the completed:
  - a. DD Form 250, **AND/OR**
  - b. DD1149
4. One copy of Bill of Lading (e.g. Seller or Government) **OR** Airway Bill

Seller shall provide the documents above with the returned Property as follows:

1. One set inside the shipping container
2. One set affixed to the outside of the shipping container which must be immediately visible and shall be protected by water-resistant transparent tape or envelope.
3. Retain one copy for Seller's files.

Seller's performance is not complete until the above documents are received by Buyer.
