

**Electrical Laboratory Equipment**

(a) The electrical equipment delivered under this contract shall (1) bear labels that indicate appropriate certification by a Nationally Recognized Testing Laboratory (NRTL) such as Underwriters Laboratory (UL) or Canadian Standards Association (CSA) (with a US subscript) or (2) be accepted by Buyer under a certification/acceptance method approved by Buyer prior to shipment.

(b) If Seller installs the equipment on Buyer's property, Seller warrants that the installation complies with applicable statutes, ordinances, regulations, codes, and standards, including but not limited to part (a) of this clause.

(c) In the event the electrical equipment and/or installation does not comply fully with applicable statutes, ordinances, regulations, codes, standards, and this clause, such equipment and/or installation shall be deemed non-conforming to this contract.
