b. Technical Review (TR) is the process of appraising the technical performance of the Seller through meetings, exchanging information on progress and problems, reviewing reports, evaluating presentations, reviewing hardware and software, witnessing and evaluating tests, analyzing plans for future work, evaluating efforts relative to contract technical objectives, and providing comments and recommendations in writing to the ABL program office as an independent technical assessment for their consideration for modifying the program or redirecting the Seller’s efforts to assure timely and economical accomplishment of program objectives.
